Dear Fellow Stockholders:

We would like to invite you to attend the Annual Meeting of Stockholders of Humana Inc., to be held on Thursday, April 21, 2022, beginning at 9:30 a.m., Eastern Time at the Company's headquarters, located at 500 West Main Street, 25th Floor Auditorium, in Louisville, Kentucky. The meeting will also be available through an audio-only webcast via the Internet on the Investor Relations section of the Company's website, www.humana.com. For further information on how to participate in the meeting, please refer to the "Frequently Asked Questions" section within this Proxy Statement.

This proxy statement contains information about our Company and the three proposals to be voted upon by stockholders at the meeting. Please give this information your careful attention.

This year, we will once again be taking advantage of U.S. Securities and Exchange Commission (SEC) rules that allow us to furnish proxy materials to our stockholders on the Internet. These materials will be available on the Internet on or about March 9, 2022. We continue to believe that Internet delivery of our proxy materials allows us to provide our stockholders with the information they need, while lowering the costs of delivery and reducing the environmental impact of our Annual Meeting.

We hope you can attend the meeting. However, even if you are unable to join us, we urge you to still exercise your right as a stockholder and vote by telephone, mail or using the Internet. The vote of every stockholder is important.

This proxy statement is being mailed or transmitted on or about March 9, 2022, to our stockholders of record as of February 28, 2022.

2021 Reflections

For our Company and our stakeholders, 2021 was a year of transition as we continued to navigate the ongoing health, social and economic challenges caused by the global pandemic. We faced these challenges head on, actively responding to issues at every turn, to ensure the holistic needs of our members were met and that our Company remained a leader in the Medicare Advantage industry. Throughout the year, our Company's core operations remained strong and we continued to advance our strategy to become an innovative integrated healthcare Company that has the power to help the millions of individuals we serve achieve their best health.

We are creating significant value by driving growth in our top-tier Medicare Advantage business while also organically expanding our Medicaid footprint, increasing the contribution from our Healthcare Services businesses, and delivering ongoing cost efficiencies and productivity improvements across the Company. **We are operating from a position of strength and are confident in our enterprise strategy, the fundamentals of the Medicare Advantage industry, and our ability to deliver significant and sustainable long-term value for our customers and stockholders.** We've seen success among our core businesses – Medicare Advantage, Medicaid, Pharmacy, Primary Care and Home Solutions – through strategic initiatives and technological advancements that have enhanced customer experiences and contributed to improved health outcomes. These successes are empowering us to pursue continued innovations with confidence as we maintain our effort to shift from an insurance company with elements of health to a health company with elements of insurance.

We are incredibly proud that Humana is the second largest Medicare Advantage health plan provider, supporting over 5 million beneficiaries with products that offer the highest quality among our public peers, as recognized by our Medicare Advantage plan Star ratings, and continued investment and growth in our Medicare Advantage business remains a key priority. We also continue to advance our consumer segmentation efforts, developing plans that are tailored to the unique needs of specific member populations, such as growing our dual eligible special needs plan (D-SNP) membership. Expansion of our Medicaid business remains a strategic priority as we're able to offer states an individualized approach to care that considers the physical and mental well-being of beneficiaries, as well as the critical social determinants that impact the population. Our Healthcare Services businesses are an important component of our strategy and will contribute considerably to our long-term growth. Combining our leading Medicare Advantage platform with our growing Pharmacy, Primary Care and Home Solutions businesses increases our total addressable market and creates the opportunity for improved clinical outcomes, lower cost of care and increased enterprise margin from our health plan members.

Looking ahead, we are encouraged and energized by opportunities for our Company to continue leading the way in addressing health, wellness, social and economic needs of all our stakeholders. By leveraging core fundamentals of our business and maintaining strategic investments within our enterprise, we are confident in our ability to remain a leader in the Medicare Advantage industry, driving improved membership growth in 2023, while continuing to deliver on our long-term adjusted earnings growth target. We extend our sincere appreciation to our associates, members and patients, clinician partners, government partners and our stockholders for your continued support, trust, contribution and belief in the success of our Company.

Frequently Asked Questions

Why am I receiving this Proxy Statement?

You are receiving a proxy statement because you owned Humana Inc. common stock, which we refer to as Shares, as of Monday, February 28, 2022, which we refer to as the Record Date, and that entitles you to vote at the Annual Meeting. Our Board of Directors has made these materials available to you on the Internet or, upon your request, has delivered printed versions of these materials to you by mail, in connection with the Board's solicitation of proxies on behalf of the Company for use at our 2022 Annual Meeting of Stockholders. Your proxy will authorize specified people (proxies) to vote on your behalf at the Annual Meeting. By use of a proxy, you can vote, whether or not you attend the meeting.

This proxy statement describes the matters on which the Company would like you to vote, provides information on those matters, and provides information about the Company that we must disclose when we solicit your proxy.

Why did I receive a one-page notice in the mail regarding the Internet availability of proxy materials instead of a full set of proxy materials?

Pursuant to rules adopted by the SEC, we have elected to provide access to our proxy materials over the Internet. We believe that Internet delivery of our proxy materials allows us to provide our stockholders with the information they need, while lowering the costs of delivery and reducing the environmental impact of our Annual Meeting. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials, which we refer to as the Notice, to our stockholders and beneficial owners as of the Record Date. All stockholders will have the ability to access the proxy materials on a website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request a printed copy may be found on the Notice. In addition, stockholders may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis by calling Broadridge Financial Solutions, Inc., or Broadridge, at 1-800-579-1639.

How can I get electronic access to the proxy materials?

The Notice provides you with instructions regarding how to:

- View our proxy materials for the Annual Meeting on the Internet; and
- Instruct us to send our future proxy materials to you electronically by e-mail.

Choosing to receive your future proxy materials by e-mail will save us the cost of printing and mailing documents to you and will reduce the impact of our Annual Meetings on the environment. If you choose to receive future proxy materials by e-mail, you will receive an e-mail next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by e-mail will remain in effect until you terminate it.

When and where is the Annual Meeting?

The Annual Meeting will be held on Thursday, April 21, 2022, at 9:30 a.m., Eastern Time, at the Company's headquarters, located at 500 West Main Street, 25th Floor Auditorium, in Louisville, Kentucky.

Who is entitled to vote?

Anyone who owns Shares, as of the close of business on February 28, 2022, the Record Date, is entitled to vote at the Annual Meeting or at any later meeting should the scheduled Annual Meeting be adjourned or postponed for any reason. As of the Record Date, 126,743,282 Shares were outstanding and entitled to vote. Each Share is entitled to one vote on each of the matters to be considered at the Annual Meeting.

What will I be voting on?

- Election of the thirteen (13) director nominees named in this proxy statement to serve on the Board of Directors of the Company;
- Ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2022; and
- A non-binding, advisory vote to approve the compensation of the Company's Named Executive Officers as disclosed in this proxy statement.

The Board of Directors is not aware of any other matters to be presented for action at the Annual Meeting. However, if other matters are properly presented for a vote, the proxies will be voted for these matters in accordance with the judgment of the persons acting under the proxies.

How does the Board recommend I vote on each proposal?

The Board recommends that you vote your Shares as follows:

- **FOR** the election of each of the thirteen (13) director nominees named in this proxy statement;
- **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2022; and
- **FOR** the approval of the compensation of the Company's Named Executive Officers as disclosed in this proxy statement.

All Shares that are represented at the Annual Meeting by properly executed proxies received before or at the Annual Meeting and not revoked will be voted at the Annual Meeting in accordance with the instructions indicated in the proxies.

How do I participate in the Annual Meeting?

This year's Annual Meeting will be held in-person at the Company's headquarters located at 500 West Main Street, 25th Floor Auditorium, in Louisville, Kentucky. The Company will also provide a live audio-only webcast of the Annual Meeting via the Internet on the Investor Relations section of the Company's website (www.humana.com). You are entitled to participate in the Annual Meeting if you were a stockholder as of the close of business on the Record Date, or hold a valid proxy for the meeting. If you decide to attend the Annual Meeting by webcast, you will be able to listen to the Annual Meeting but will not have the ability to vote your shares or ask questions during the Annual Meeting. Conversely, if you are attending in-person, you will have the ability to ask questions and vote your Shares during the Annual Meeting. The Company will provide Rules of Conduct for the Annual Meeting which can be obtained at www.proxyvote.com after logging in with your unique 16-digit control number provided on your Notice of Internet Availability of Proxy Materials, your proxy card or your voting instruction form that accompanied your proxy materials (your "Control Number"). The Rules of Conduct will be strictly adhered to during the Annual Meeting.

If you are a beneficial stockholder, you may contact the bank, broker or other institution where you hold your account if you have questions about obtaining your Control Number. Non-stockholders are welcome to attend the Annual Meeting, however guests will not be allowed to participate during the Annual Meeting except as listeners.

A question and answer (Q&A) session will be available to stockholders during the Annual Meeting and will include questions submitted in advance of, and questions asked in person during, the Annual Meeting. You may submit a question in advance of the meeting at www.proxyvote.com after logging in with your Control Number. Questions may be submitted in person during the Q&A session of the Annual Meeting. The Company's Corporate Secretary will review all questions submitted in advance to ensure that those presented for response are in accordance with the Rules of Conduct.

How do I vote?

There are four ways that you can vote your Shares. Voting by any of these methods will supersede any prior vote you made regardless of how that vote was made. **PLEASE CHOOSE ONLY ONE OF THE FOLLOWING:**

- 1) **By Internet.** The website for voting is www.proxyvote.com. In order to vote on the Internet, you need the Control Number on your proxy card. Each stockholder has a unique control number so we can ensure all voting instructions are genuine and prevent duplicate voting. The Internet voting system is available 24 hours a day, seven days a week, until 11:59 p.m., Eastern Time, on

Wednesday, April 20, 2022, the day before the Annual Meeting. Once you are logged on the Internet voting system, you can record and confirm (or change) your voting instructions. If you use the Internet voting system, you do not need to return your proxy card.

- 2) **By Telephone.** If you are a registered holder in the United States or Canada, you may call 1-800-690-6903. The telephone voting system is available 24 hours a day, seven days a week, until 11:59 p.m., Eastern Time, on Wednesday, April 20, 2022, the day before the Annual Meeting. In order to vote by telephone, you need the Control Number on your proxy card. Each stockholder has a unique Control Number so we can ensure all voting instructions are genuine and prevent duplicate voting. Once you are logged on the telephone voting system, a series of prompts will tell you how to record and confirm (or change) your voting instructions. If you use the telephone voting system, you do not need to return your proxy card.
- 3) **By Mail.** Mark your voting instructions, sign and date the proxy card and then return it in the postage-paid envelope provided. If you mail your proxy card, we must receive it before 12:00 p.m., Eastern Time, on Friday, April 15, 2022. If you are returning your proxy card to Broadridge, they must receive it before 10:00 a.m., Eastern Time, on Wednesday, April 20, 2022, the day before the Annual Meeting.
- 4) **In person.** Attend the Annual Meeting. Mark your voting instructions and deliver the proxy card to the Inspectors of Election. Be aware that you can vote by methods 1, 2 or 3 above prior to the meeting and still attend the Annual Meeting. In all cases, a vote at the Annual Meeting will revoke any prior votes. Please note that if your Shares are held through a bank, broker or other nominee, you will need to obtain your Control Number in order to vote.

How will my Shares be voted if I do not specify how they should be voted?

If you sign and return your proxy card without indicating how you want your Shares to be voted, the persons acting under the proxies will vote your Shares as follows:

- **FOR** the election of each of the thirteen (13) director nominees named in this proxy statement;
- **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2022; and
- **FOR** the approval of the compensation of the Company's Named Executive Officers as disclosed in this proxy statement.

What if my Shares are not registered in my name?

If you own your Shares in "street name," meaning that your bank, broker or other nominee is actually the record owner, you should receive the Notice and voting instruction card from your bank, broker or other nominee. In addition, stockholders may request, by calling Broadridge at 1-800-579-1639, to receive proxy materials in printed form, by mail or electronically by e-mail, on an ongoing basis. When you own your Shares in street name, you are deemed a beneficial owner or holder for voting purposes and you may not vote your Shares at the Annual Meeting unless you receive a valid proxy from your brokerage, firm, bank, broker-dealer or other nominee holder.

If you hold Shares through an account with a bank, broker or other nominee and you do not provide voting instructions on your instruction form, your Shares may not be voted by the nominee with respect to certain proposals, including:

- the election of directors;
- the approval of the compensation of the Company's Named Executive Officers as disclosed in this proxy statement; and
- the frequency with which future non-binding advisory stockholder votes on the compensation of the Company's Named Executive Officers will be held.

Banks, brokers and other nominees have the authority under the regulations of the New York Stock Exchange, or the NYSE, to vote Shares for which their customers do not provide voting instructions only on certain "routine" matters, including the ratification of the appointment of the Company's independent registered public accounting firm. However, the proposals listed above are not considered "routine" matters for this purpose, and therefore your Shares will not be voted with respect to such proposals if you do not provide voting instructions on your instruction form.

How many votes are required to approve each proposal, what are the effects of abstentions and unmarked proxy cards, and is broker discretionary voting allowed?

Proposal	Vote Required for Approval	Effect of Abstentions	Broker Discretionary Voting Allowed ⁽²⁾	Unmarked/Signed Proxy Cards
Election of directors	The number of votes cast for a nominee exceeds the number of votes cast against that nominee. ⁽¹⁾	No effect	No	Voted “For” All Directors
Ratification of the appointment of the independent registered public accounting firm	Majority of shares present and entitled to vote	Counted as “Against”	Yes	Voted “For”
Non-binding advisory vote to approve executive compensation	Majority of shares present and entitled to vote	Counted as “Against”	No	Voted “For”

- (1) Under the Company’s Majority Vote Policy, following election to our Board of Directors, a director is required to submit his or her irrevocable resignation to our Board of Directors conditioned upon (a) the director not achieving the requisite stockholder vote at any future meeting at which he or she faces re-election, and (b) acceptance of the resignation by the Board of Directors following that election. The Board of Directors has 90 days after a director fails to achieve the requisite stockholder votes to determine whether or not to accept the director’s resignation and to report this information to our stockholders.
- (2) If you are a beneficial owner whose Shares are held of record by a broker or other NYSE member organization, you must instruct the broker how to vote your Shares. If you do not provide voting instructions, your Shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. This is called a “broker non-vote.” A broker non-vote will not affect the outcome of the vote for the matters being presented for action at the Annual Meeting, because they are not considered to be votes cast.

What is a “broker non-vote”?

A broker non-vote occurs when a broker or other NYSE member organization holding Shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner, but does have discretionary voting power over other items and submits votes for those matters. As discussed above, if you hold Shares through a broker or other NYSE member organization and do not provide voting instructions to your broker or other NYSE member organization, your Shares may not be voted with respect to certain proposals, including the proposals listed above that are not considered routine.

What is a “quorum”?

A “quorum” is a majority of the issued and outstanding Shares entitled to vote at the Annual Meeting. Shares may be voted at the Annual Meeting by a signed proxy card, by telephone instruction, or electronically on the Internet. There must be a quorum for the Annual Meeting to be held. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining whether a quorum exists.

How do I vote the share equivalent units held in the Humana Common Stock Fund of the Humana Retirement Savings Plan or the Humana Puerto Rico Retirement Savings Plan?

If you have an interest in the Humana Common Stock Fund of the Humana Retirement Savings Plan or the Humana Puerto Rico Retirement Savings Plan on the Record Date, you may vote. Under the Humana Retirement Savings Plan and the Humana Puerto Rico Retirement Savings Plan, your voting rights are based on your interest, or the amount of money you and the Company have invested in your Humana Common Stock Fund.

You may exercise these voting rights in almost the same way that stockholders may vote their Shares, but you have an earlier deadline, and you should provide your voting instructions to Broadridge. Broadridge will aggregate the votes of all participants and provide voting information to the Trustee for the applicable plan. If your voting instructions are received by 11:59 p.m., Eastern Time, on Wednesday, April 13, 2022, the Trustee will submit a proxy that reflects your instructions. If you do not give voting instructions (or give them later than that time), the Trustee will vote your interest in the Humana Common Stock Fund in the same proportion as the Shares attributed to the Humana Retirement Savings Plan, or the Humana Puerto Rico Retirement Savings Plan, as applicable, are actually voted by the other participants in the applicable plan.

You must provide your instructions to Broadridge by using the Internet, registered holder telephone number (1-800-690-6903) or mail methods described above. **Please note that you cannot vote during the Annual Meeting.** Your voting instructions will be kept confidential under the terms of the Humana Retirement Savings Plan or the Humana Puerto Rico Retirement Savings Plan, as applicable.

Who will count the votes?

Broadridge will tabulate the votes cast by proxy, whether by proxy card, Internet or telephone. Additionally, the Company's Inspectors of Election will tabulate the votes cast at the Annual Meeting together with the votes cast by proxy.

How do I change my vote or revoke my proxy?

You have the right to change your vote or revoke your proxy at any time before the Annual Meeting.

Your method of doing so will depend upon how you originally voted (a later vote will supersede any prior vote you made regardless of how that vote was made):

- 1) In Person — simply vote in person at the Annual Meeting;
- 2) By Internet — simply log in and resubmit your vote — Broadridge will only count the last instructions;
- 3) By Telephone — simply sign in and resubmit your vote — Broadridge will only count the last instructions;
- 4) By Mail — you must give written notice of revocation to Broadridge, 51 Mercedes Way, Edgewood, NY 11717 or by fax at 1-515-254-7733, submit another properly signed proxy with a more recent date. For written and fax notices, you must include the Control Number that is printed on the upper portion of your proxy card.

What is the due date for stockholder proposals, including stockholder nominees for director, for inclusion in the Company's proxy materials for the 2023 Annual Meeting?

Stockholder proposals, or stockholder nominees for director at the 2023 Annual Meeting, as permitted by SEC regulations for inclusion in our proxy materials relating to the 2023 Annual Meeting, must be submitted to the Corporate Secretary in writing no later than November 9, 2022. Proposals should be submitted to the attention of the Corporate Secretary, Humana Inc., 500 West Main Street, 21st Floor, Louisville, Kentucky 40202. Further, to comply with the universal proxy rules (once effective), stockholders who intend to solicit proxies in support of director nominees other than the Company's nominees must provide notice that sets forth the information required by Rule 14a-19 under the Exchange Act no later than February 20, 2023.

May a stockholder present a proposal not included in our Proxy Statement at the April 21, 2022, Annual Meeting?

A stockholder can present a proposal at the Annual Meeting (a so-called “floor resolution”) only if certain notice requirements are met. The SEC does not directly regulate meeting conduct. State law imposes only limited requirements, so meetings are governed by procedures set forth in our Amended and Restated Bylaws (the “Bylaws”). Humana’s Bylaws require that a stockholder provide written notice of intent to bring a proposal no less than 60 days or more than 90 days prior to the scheduled date of the Annual Meeting of stockholders. If less than 70 days’ notice of the Annual Meeting is given, written notice by a stockholder would be deemed timely if made no later than the 10th day following such notice of the Annual Meeting. A proposal must also meet other requirements as to form and content set forth in our Bylaws. Stockholder proposals should be sent to the attention of the Corporate Secretary, Humana Inc., 500 West Main Street, 21st Floor, Louisville, Kentucky 40202. A copy of our Bylaws is available on our website. From the www.humana.com website, click on “Investor Relations,” and then click on “Corporate Governance” subcategory and then click on the link entitled, “Bylaws.”

How will Humana solicit votes and who pays for the solicitation?

We have engaged D. F. King & Co., Inc. to assist in the distribution of proxy materials and solicitation of votes for approximately \$13,000 plus expenses. We have also engaged Broadridge to assist in the distribution of proxy materials and the accumulation of votes through the Internet, telephone and coordination of mail votes for approximately \$321,350 plus expenses. We will reimburse banks, brokers and other nominees for their reasonable out-of-pocket expenses for forwarding proxy and solicitation material to our stockholders.

How can I obtain additional information about the Company?

Included with this proxy statement (either in printed form or on the Internet) is a copy of our Annual Report on Form 10-K for the year ended December 31, 2021, which also contains the information required in our Annual Report to Stockholders. Our Annual Report on Form 10-K and all our other filings with the SEC also may be accessed via the Investor Relations section on our website at www.humana.com. We encourage you to visit our website. From www.humana.com click on “Investor Relations,” then click on the “SEC Filings and Financial Reports,” then click on the “Annual Reports” subcategory.

Where can I find voting results for this Annual Meeting?

The voting results will be published in a current report on Form 8-K which will be filed with the SEC no later than four business days after the Annual Meeting. The Form 8-K will also be available on our website. From the www.humana.com website, click on “Investor Relations,” then click on “SEC Filings and Financial Reports,” and then click on “SEC Filings” subcategory.

What is “householding”?

“Householding” occurs when a single copy of our Annual Report, proxy statement and Notice is sent to any household at which two or more stockholders reside if they appear to be members of the same family. Although we do not “household” for registered stockholders, a number of brokerage firms have instituted householding for Shares held in street name. This procedure reduces our printing and mailing costs and fees. Stockholders who participate in householding will continue to receive separate proxy cards, and householding will not affect the mailing of account statements or special notices in any way. If you wish to receive separate copies of our Annual Report, proxy statement or Notice in the future, please contact the bank, broker or other nominee through which you hold your Shares.

Company Overview

Headquartered in Louisville, Kentucky, Humana Inc. is a leading (2021 Fortune #41 ranking) health and well-being company focused on making it easy for people to achieve their best health with clinical excellence through coordinated care. Our strategy integrates care delivery, the member experience, and clinical and consumer insights to encourage engagement, behavior change, proactive clinical outreach and wellness for the millions of people we serve across the country. As of December 31, 2021, we had approximately 17.1 million members in our medical benefit plans, as well as approximately 5.3 million members in our specialty products.

Our Strategy

We are committed to addressing the most important health needs of our millions of medical and specialty insurance members and health care services customers to simplify achieving better health and give our customers more healthy days. We offer insurance and non-insurance products to consumers through our various subsidiaries. Our medical and specialty insurance products allow members to access health care services primarily through our networks of health care providers with whom we have contracted. In addition, we offer pharmacy solutions, provider services, home solutions services and other services and capabilities to promote wellness and advance population health.

Our successful history in care delivery and health plan administration is helping us create a new kind of integrated care delivery system with the power to address our customers' most significant needs that impede simpler health care and better health by (i) making care more predictable, understandable, and affordable, (ii) addressing medical, behavioral, and social needs, and (iii) delivering care whenever and wherever our customers need it. Our efforts are leading to a better quality of life for people with Medicare, families, individuals, military service personnel, and communities at large. Humana's innovative strategy continues to capitalize on industry changes by positioning ourselves as a partner in health and aging to our consumers. We understand that health care is complicated, and dealing with multiple physicians and other health care professionals can be a confusing and daunting task. That is one of the principal reasons why Humana continues to enhance its integrated care delivery strategy in key areas to enable a better and more seamless locally delivered health care experience for our members.

We are focusing on the unmet needs that matter the most to our customers, aligning our actions and behaviors to go above and beyond to solve those needs and deliver on a "more human" experience, so people get more than they expect, ultimately helping members achieve their best health. We call this delivering "human care." Human care separates Humana from other traditional insurance companies, demonstrating that our approach is more caring, personalized, and easier. We do this by (i) listening to our customers, (ii) establishing strong partnerships with trusted individuals who are involved in their care, such as providers and caregivers, (iii) developing technologies and other solutions that offer convenient and easy ways for them to engage with their health, and (iv) leveraging data analytics to improve how they engage and interact with us by personalizing the experience for how they want to interact with Humana.

Our ecosystem of value-based care delivery capabilities engages our customers clinically by focusing on the physical, mental, and preventative aspects of their health, and delivering better health outcomes. We activate a network of proprietary and partnered solutions, focusing specifically on the highest influence touchpoints of the health care delivery system, including primary care, home health, pharmacy, behavioral health, and social determinants of health. We support the integration of these touchpoints through robust data, analytics, and digital health capabilities that help us engage our customers in their health and get them the right care, in the right place, at the right time. This approach allows us to deliver better quality and health outcomes while making the health care experience simpler for our members and patients.

Our Continued COVID-19 Response

Throughout 2021, the COVID-19 pandemic continued to present unique challenges that highlighted our commitment to quality, the strengths of the Medicare Advantage (MA) program, and the value that this enduring public-private partnership brings to our nation's seniors, the disabled and the healthcare system as a whole. Early in the year, we activated our teams to support our members in getting vaccinated, leveraging our data, analytics and clinical capabilities to engage in proactive outreach to help our members schedule appointments, partnering with retail organizations, providers and the communities we serve in setting up vaccine clinics, and ensuring that underserved populations had equal opportunities to access the vaccines. As the year progressed, we continued to adapt to address our members' needs, providing resources regarding the safety and efficacy of the vaccines, reducing financial barriers to care, further improving access to telephonic and in-home care and screening capabilities, supporting our members in receiving in-person care, and addressing social determinants of health needs that were exacerbated by the pandemic.

These efforts and our performance in 2021 were made possible by the ongoing, tireless efforts of our associates, who continued to put our members and patients at the front of everything we do while continuing to balance the daily challenges presented by the pandemic.

Our Performance

Our 2021 financial results reflect strong core performance:

- We reported diluted earnings per common share (EPS) of \$22.67 on a Generally Accepted Accounting Principles (GAAP) basis and Adjusted EPS of \$20.64;*
- We returned approximately \$354 million to our stockholders in the form of dividends, representing an increase of \$31 million over fiscal year 2020;
- Over 97% of our Medicare Advantage members in 2021 were in a plan with a 4-Star rating or higher for 2022 and we've increased the number of contracts that received a 5-Star rating from 1 contract in 2021 to 4 contracts in 2022 - the most in our history;
- We grew our Individual Medicare Advantage membership by 446,400 members, or 11.3%, in 2021, from 3,962,700 members as of December 31, 2020, to 4,409,100 members as of December 31, 2021, with enrollment in our dual eligible special needs plans (D-SNP) growing by more than 40% in 2021, and enrollment in our Humana Honor plan designed for Veterans, that is also available to all Medicare eligibles, growing by 80% in 2021;
- We accelerated the growth of our senior-focused, value-based primary care organization, the largest in the nation, ending 2021 with more than 200 centers serving approximately 350,000 patients across 24 markets in 9 states;
- We saw continued growth in our pharmacy business, with our Pharmacy Benefit Manager (PBM), the fourth largest in the country, processing 515 million 30-day equivalent scripts in 2021, an 8 percent increase year over year; and
- We became the largest home health and hospice organization in the nation through the completion of our acquisition of Kindred at Home, and made substantial progress towards our goal of scaling and maturing a risk-bearing, value-based model that manages the provision of home health, durable medical equipment (DME) and home infusion services.

Role of the Board and Board Leadership

Role of the Board

The business of the Company is managed under the direction of the Board, whose members are elected annually by the Company’s stockholders. The basic responsibility of the Board is to lead the Company by exercising its business judgment to act in what each director reasonably believes to be in the best interests of Humana and its stockholders, while engaging in active and independent oversight of the management of the Company’s business affairs and assets. In order to fulfill its responsibilities to the Company’s stockholders, the Board, both directly and through its committees, regularly engages with management to both evaluate the Company’s current operations and encourage the innovations and strategic imperatives that will drive our success in the future. The Board monitors management performance through reviews of the most critical issues facing the Company, including approval of the Company’s strategy and mission, execution of the Company’s financial and operational goals, oversight of risk management, succession planning, and determination of executive compensation. The Board plans for the future by ensuring management focuses on innovation in our strategy to meet the speed of change in our industry and monitoring the Company’s human capital management functions, working closely with the management team to ensure the Company has the correct levels of talent in place – within each business segment – for continued success in present and future states of the Company.

Board Oversight of Risk

While management is responsible for designing and implementing the Company’s risk management process, controls and oversight, the Board, both as a whole and through its committees, has overall responsibility for oversight of the Company’s risk management. The full Board regularly reviews risks that may be material to the Company, including those detailed in the Audit Committee’s reports and as disclosed in the Company’s quarterly and annual reports filed with the SEC. While the Board has established committees designated for various oversight functions, it is common practice for committees to collaborate on overlapping issues.

Management				
Business units identify and manage business risks; Central functions design risk framework (setting boundaries and monitoring risk appetite); and Internal Audit provides independent assurance on design and effectiveness of internal controls and governance processes.				

The goal of these processes is to achieve serious and thoughtful board-level attention to the Company's risk management process and system, the nature of the material risks faced by the Company, and the adequacy of the Company's risk management process and system designed to respond to and mitigate these risks.

Board Leadership

Leadership of the Board is essential to facilitate the Board acting effectively as a working group to the benefit of the Company and its performance. As Chairman of the Board and our lead independent director, Mr. Kurt J. Hilzinger assumes key duties to ensure effectiveness and collaboration in all aspects of the Board's role.

Duties of Our Chairman

- ✓ Serves as Chair of regular sessions of the Board and manages the overall Board process.
- ✓ Leads the Board in anticipating and responding to crises.
- ✓ Oversees and monitors Board engagement, participation and continued education to ensure our directors are in-tune with issues of our dynamic industry and the evolving landscape.
- ✓ Supports the Nominating, Governance & Sustainability Committee with director on-boarding and orientation programs.
- ✓ Models culture, philosophy, inclusivity and values expected of all directors.
- ✓ Conducts individual meetings with other directors, including the CEO, and management team to encourage open communication, collaboration and differences in perspective.
- ✓ Evaluates overall Board effectiveness, with emphasis on identifying areas of enhancement, development and/or furtherance and communicating these observances to the Board for discussion.
- ✓ Represents the Board on occasions where it is important for the Board to respond on matters independently from the Company's management team.
- ✓ Provides guidance and direction to the CEO and management team.
- ✓ Engages with stockholders, through verbal or written communications, and presides over the Company's Annual Meeting of Stockholders. Also recommends to the Board an agenda to be followed at the Annual Meeting.
- ✓ Works with the Organization & Compensation Committee to develop the process for CEO compensation evaluations.

The Board believes the advisability of having separate or combined chairman and chief executive officer positions is dependent upon the strengths of the individual or individuals that hold these positions and the most effective means of leveraging these strengths, in light of the challenges and circumstances facing the Company, which may change over time. At this time, given the composition of the Company's Board, the effective interaction between Mr. Hilzinger, as Chairman, and Mr. Broussard, as Chief Executive Officer, Mr. Hilzinger's status as an independent director and previous service as our Lead Director, and the current challenges faced by the Company, the Board believes that separating the chief executive officer and board chairman positions provides the Company with the right foundation to pursue the Company's strategic and operational objectives, while maintaining effective independent oversight and objective evaluation of the performance of the Company.

Board Engagement and Undertakings

The Board holds itself to a high standard of engagement, with a hands-on approach that leads to critical insights regarding our customers, operations and business and enhances their level of governance and oversight. An essential component to the Board's engagement is communicating with the Company's internal and external stakeholders. To accomplish this, meetings of the Board may be held in key Company markets where, together with management, the Board will personally meet with associates, customers, providers and other stakeholders to gain direct feedback into the Company's operations, experiences and overall effectiveness. Despite continued COVID-19 restrictions and the Company's workforce having remained primarily work-from-home, the Board maintained its commitment to engagement and continued to meet with stakeholders virtually, by videoconference and teleconference.

Certain other engagement practices of our Board are described below.

- Follows an annual topical calendar used to balance strategic, operational, compliance, and cultural matters, among others, and receives detailed reports on those topics, in addition to ad hoc subjects, throughout the year.
- Utilizes clear and proactive Board meeting agendas to achieve high productivity at each meeting.
- Holds executive sessions during every meeting, with the CEO present and then with only the independent directors. Relevant feedback is then reported to the CEO and the management team, creating a feedback loop from the Board to the management team.
- Maintains regular communication with the CEO and management team, apart from formal Board meetings, to ensure consistent and continuous progress toward established goals.
- Employs Board technology tools to review Board materials and to remain informed of ongoing Company endeavors, to efficiently communicate with the management team and to take formal action when necessary.
- Performs in-depth organizational structure reviews, through the Organization & Compensation Committee, of line and functional teams within the Company to assess leadership bench strength, culture, succession planning, diversity and related matters, and engages regularly with rising leaders within the Company. In addition, the Organization & Compensation Committee regularly reviews associate engagement scores, which maintained momentum during 2021, with **89% of our associates saying that Humana is committed to their health and well-being.**
- Receives continued education from external consultants on a wide range of industry topics to keep them apprised of the latest trends and anticipated future trajectories. In addition to our director's individual pursuits, Board education opportunities during 2021, included, (i) a formal education session with external consultants; (ii) guest speaker attendance during select meetings; and (iii) routine briefings on regulatory developments.

2021 Notable Board Actions

- Appointed 2 new directors to the Board
- Elected 2 new executive officers in connection with management succession planning
- Oversaw enhanced ESG disclosures, as well as, the Company's transition to an integrated ESG reporting framework – Humana's Impact Report

Human Capital Management

Our associates are essential to our Company's success in delivering on our core strategy, creating positive healthcare experiences and providing human care for our members. We are committed to recruiting, developing, and retaining strong, diverse teams, actively promoting a culture of inclusion and diversity to foster a workplace where all associates feel they can be authentic and bring their whole selves to work every day – cultivating uniqueness and thriving together.

These efforts are overseen by our Board of Directors – which has designated to our Organization & Compensation Committee the responsibility for Board-level oversight of the Company's human capital management and inclusion and diversity policies and practices – and implemented under the direction of our Chief Administrative Officer. As of December 31, 2021, we had approximately 95,500 associates and approximately 1,400 additional medical professionals working under management agreements primarily between us and affiliated physician-owned associations.

Our Culture and Approach to Work

We believe that our members' experience is linked to our associates' experience—engaged, productive associates are the key to building a healthy company, a caring environment where our associates go above and beyond for our members, driving innovation, and offering fulfilling experiences that incentivizes them to stay with us over the long-term. We provide opportunities for our associates to add to their personal well-being experiences that go beyond health to enhance their individual need for purpose, belonging and security.

Each year, we measure our success and opportunities to advance through our annual, third-party administered Associate Experience Survey – results of the 2021 survey showed that **91% of associates are highly engaged, which is world-class level**. We provide the survey results to our entire associate population and encourage leaders to use the information to create open, honest action plans with their teams to build upon and further deepen our collective engagement.

Listening to the voice of our associates reinforces our Value of Rethink Routine. We send pulse surveys to associates throughout the year to get feedback on how we're doing, allowing us to assess our approach to work and take action when needed. We believe this helps to strengthen our culture and support associate engagement. It was through this process that WorkLife Reimagined was formed – our latest work style model that's focused on flexibility and collaboration. We've learned that there isn't just one way to operate or one way work gets done. That's why WorkLife Reimagined includes work styles that benefit everyone and will continue to guide and shape our culture. As our associates transition to their new work style we're equipping them with the tools they need to be successful – whether working at home, the office, in the field or a hybrid style – they'll stay connected no matter where they sit.

Strong Company culture starts with leadership at the top. Our CEO inspires Company culture by sending a weekly Company-wide email where he engages with associates on a variety of topics including business matters, current events, health and well-being, family and personal interests. A survey link is included within these communications encouraging associates to speak up and share their own experiences directly with our CEO.

Inclusion and Diversity

Celebrating diverse backgrounds and creating an environment of inclusion is at the heart of Humana. We take intentional steps to nurture a culture where all employees, no matter who they are, feel like they can be their best selves and do their best work. Only then can we make the best decisions for our customers to ensure that they all have a fair and just opportunity to be as healthy as possible.

Our associates' vast experiences and perceptions—their unique characteristics, backgrounds and beliefs—drive the groundbreaking, strategic thinking that gives our Company its competitive edge in a diverse marketplace. Our approach fosters innovative thinking and creativity, expands insights and generates better business outcomes.

We are committed to having balanced diversity at all levels of the Company and have developed a pathway for top, diverse talent within our recruiting initiatives. To achieve our recruiting and hiring goals we proudly partner with local and national advocacy groups, including the CEO Action for Diversity and Inclusion, the Catalyst CEO Champions for Change, and the OneTen Coalition, to provide information about open roles, assistance with resume preparation and application submission, and to design and execute other talent acquisition and development initiatives. We're proud to be recognized as a Military Friendly employer. Under our Veterans Hiring Initiative we partner with dozens of organizations for veteran recruitment, including the Wounded Warrior Project, United States Army Reserve, and Paralyzed Veterans of America, and have hired thousands of veterans and military spouses. We have also designed and implemented programs that enhance our hiring initiatives aimed toward women in technology, retiree/mature worker populations, and closing the hiring gap of persons with disabilities versus those without disabilities.

We've also incorporated balanced interview panels into our interview process, through which we strategically engage a broad spectrum of interviewers that bring greater diversity and perspective. This proven best practice strengthens the candidate experience and hiring of diverse talent, ensuring we get the right talent for any given role, and minimizes the potential for personal blind spots when evaluating candidates. Balanced interview panels enhance the experience of interviewees and demonstrate our Values in action.

We're committed to building balanced diversity at all levels of the Company through a focused effort on supporting a pathway for top, diverse talent, strengthening current collaborations and forging new partnerships. Achievement in this area requires a mindset of shared accountability and commitment to enterprise outcomes. In 2020, Humana leaders aligned to high-level goals – hiring and promotion of diverse talent, retention of diverse senior leadership (VP and above), inclusion, mentoring and leaders participating in conscious inclusion training – with shared accountability focused on driving inclusion and diversity throughout the enterprise. We've employed a metrics-driven approach to address areas of improvement quickly and goal achievement is linked to executive compensation (refer to section entitled "Compensation Discussion & Analysis – Associate Incentive Plan" within this proxy statement for more information on executive compensation). **Since introducing these shared accountability measures, we've seen year-over-year (YOY) improvements among our female associates and associates of color.** Our workforce representation is tracked through self-disclosure by our associates, and are committed to transparent disclosure of our demographic data. Talent Development and Growth Opportunities

We champion the individual goals and development of our associates, and provide a number of programs to ensure that our associates have the resources and support they need to deliver on their passion. The Humana Learning Center gives our associates the opportunity to earn professional certifications through continued education programs and to participate in instructor-led and online courses designed to strengthen soft and hard-skills and enhance leadership development. Our Career Cultivation team sponsors workshops and events to promote associate accountability within their personal and professional growth as part of overall career development. In 2021, **our associates averaged approximately 35 learning and development hours per active associate.**

Our associates are also encouraged to participate in mentoring programs with people of various backgrounds and cultures. We view mentoring as an essential development tool for sharing skills and knowledge so we can all succeed. Our commitment to mentoring feeds the successful future of our Company. In 2021, **our associates participated in more than 2,700 mentoring circles, underscoring the Company's focus on creating a culture of mentoring and inclusion.** We also utilize development programs to enhance talent within our business segments through targeted internal initiatives, where we aim to upskill and reskill existing associates for opportunities in new career pathways.

A Workplace With Purpose

Having a purpose and a connection to a community improves well-being. That's why we strive to make it easy for our associates to give back, either as individuals or a team, to causes that ignite their passion and sense of purpose. Volunteerism is a tangible way to impact the health and well-being of the communities we serve and enrich our workplace.

We've created programs and practices to make volunteering easier and more vibrant for associates.

- Our full-time associates annually receive eight hours of paid Volunteer Time Off (VTO)
- We help associates discover and track volunteer opportunities through our Humana Together volunteer portal
- We integrate volunteerism in our leadership development and team-building
- We offer a matching charitable gift program through The Humana Foundation
- We feature associates sharing their volunteerism stories on our Intranet to inspire others
- We offer our associates paid time off to get vaccinated, including boosters, for COVID-19, helping to reduce barriers associates may have in taking time away from work to get vaccinated and supporting healthy communities

Board Oversight of Environmental, Social and Governance Matters

The Nominating, Governance & Sustainability Committee has responsibility for Board-level oversight of the Company's ESG strategy, practices and reporting. The Nominating, Governance & Sustainability Committee receives formal ESG reports from management at least twice annually regarding the Company's ESG initiatives, metrics and progress on established goals, as well as, ad hoc ESG communications as necessary. In addition, we have an internal ESG Steering Committee, overseen by our Chief Administrative Officer and Chief Legal Officer, to guide the integration of our ESG efforts with our long-term business strategy. This ESG governance structure complements the long-standing responsibility of our Board and each of our Board committees in overseeing various aspects of the Company's ESG-related risks and practices, as illustrated below:

Strategic Focus on ESG

We realize that the future of our business is linked with the well-being of our associates, members and patients, the communities we serve, the healthcare system, and the environment. It's with our stakeholders in mind that we've established five key pillars of our ESG program that align to our strategic business goals, supporting our commitments to sustainable business and improving health outcomes. These pillars – **Access to Healthcare; Data Privacy & Protection; Environmental Impact; Product Quality & Safety; and Talent & Diversity** – are the driving force behind our impact platform and will guide our ESG program.

We've developed quantitative and/or qualitative metrics within each pillar to track, monitor, measure and report our performance. Transparent disclosures are a top priority, as such, we've mapped our ESG disclosures to frameworks established by the Sustainability Accounting Standards Board (SASB) Managed Care Standard, the Task Force on Climate-Related Financial Disclosures (TCFD), and the Global Reporting Initiative (GRI). We also support the United Nations Sustainable Development Goals, aligning our efforts to three goals where our Company can most contribute: Goal 3 – Good Health and Well-being; Goal 8 – Decent Work and Economic Growth; Goal 12 – Responsible Consumption and Production.

Our Impact Platform

We've set our intentions to have a positive well-being impact among all of our stakeholder groups and have developed a platform where we believe we can make the most difference. Our impact platform sets the direction for how we will advance health equity, address needs in our communities and drive sustainable change with shared value. The pillars may connect to one or more categories within the impact platform, reinforcing the interconnectedness of our holistic approach to ESG. We've highlighted below key elements of our ESG program along with some of our notable pillar metrics.

For each person, we make it easier for people to achieve their best health.

We are all on a unique journey to our own best health, so through empathy and a personalized approach, we not only address medical needs, but meet people where they are by helping our customers, employees – everyone – address human needs, too.

For each community, we work to advance population health.

Where people live, work and play is inextricable from their health outcomes, so we're passionate about taking on the social determinants of health that impact their communities on a local level.

For our business and the collective healthcare system, we help build more equitable and sustainable practices.

The future of health depends on the health of the collective system, so alongside our partners, we're striving to create a more equitable health ecosystem that incorporates sustainable business practices, to better serve all of us, and the next generation.

For the environment, we invest in the health and sustainability of the environments around us.

The health of individuals is deeply tied to the health of their environments, so we do our part to invest in, protect and care for the places and planet all people depend on.

For Each Person

Our members achieving their best health is at the top of our mind. We know that health is not linear. Every member is unique as are the communities we serve. That's why we're continuously working to ensure that our health plan products and services are as affordable as possible, as well as, **addressing access to healthcare barriers** so that all of our members can receive the care they need. As we cultivate our philosophy of whole-person health care, we're addressing the most crucial needs of our members, which means truly caring about them, understanding what is important to them and finding ways to make it easy for them to live their best life. Thanks to processes such as integrated care delivery and using health screenings that consider social determinants of health, we have a clearer view of each member's very personal barriers to their best health. Through our integrated approach, **we are building the tools to address the physical, behavioral and social factors that all play such a critical role in promoting improved health outcomes**. Please refer to our Value-Based Care Report for more information on these efforts.

Our associates are the driving force behind our Company's well-being initiatives. We believe that when we invest in our associates they pay it forward by investing in others. In this effort we actively **live out our Values, cultivating uniqueness and thriving together**.

The Company's Office of Inclusion & Diversity (our "I&D Office") efforts are led by our Chief Inclusion and Diversity Officer, who reports directly to the Chief Administrative Officer. The I&D Office works with key partners like the Chief Health Equity Officer, our new Director of Diverse Talent Strategy, our Executive Inclusion & Diversity Council (the "Council"), our Network Resource Groups ("NRGs"), local Inclusion and Diversity Councils, and Culture & Engagement professionals across the enterprise, to maximize our vibrant diversity and inclusive culture to empower our business strategy to help the communities we serve achieve their best health.

To help integrate inclusion and diversity into the fabric of the organization from the top down, the Council is led by our President and CEO, with top priorities consisting of (i) leading and informing the strategy to drive the hiring, developing, promotion and retaining of our full diverse workforce; (ii) creating and maintaining an inclusive culture; (iii) reviewing our supply base and spend for diversification opportunities; and (iv) improving transparency and accountability to sustain outcomes. The Council sets company-wide inclusion and diversity goals and objectives that complement our Talent & Diversity pillar.

Our inclusion and diversity objectives also aim to build an awareness of biases and beliefs, identify differences and similarities of our multi-generational workforce and enable associates to leverage differences to drive innovation and create value. **We are committed to growing our associates' inclusion skills and diversity knowledge** and provide a variety of associate training programs and workshop opportunities in areas of unconscious bias, disability awareness, cultural competency, racial equity, and social justice, among others.

Our fundamental belief that **every person has the right to a safe workplace** includes having freedom of gender identity and expression, which we have included within our non-discrimination and anti-harassment policies. Additionally, our Company adopted guidance to support associates who are transgender and/or identify as non-binary. Our Workplace Gender Transition Guidelines, available to all associates, outlines a collaborative process to help guide transitioning associates, their coworkers and leaders by addressing the needs and issues that may arise in the workplace, and includes alignment of workplace resources, education and coaching.

For Each Community

We recognize that we are part of a bigger community – one that is connected to our members, patients, employees and neighbors. We are dedicated to the holistic health of all people, and that is why we invest in communities across the country to advance health equity. Health equity is about making sure we all have a fair and just opportunity to be as healthy as possible. Helping communities and the people in them grow stronger benefits all of us, because where people live, work and play is inextricable from their health outcomes. We're partnering with communities to advance health equity on a local level and take on the social determinants of health that impact all of us.

As our Company shifts from an insurance company with elements of health to a health company with elements of insurance, we are focused on five areas of influence to help improve health and aging: primary care, home health, pharmacy, behavioral health and social determinants of health. Championing this effort is our Bold Goal – a population health strategy launched in 2015 to improve the health of the people and communities we serve by creating solutions to address unmet social needs and making it easier to achieve their best health.

Since 2015 we've continued to adapt as we learned more about our communities and our members. We discovered how important it is to develop personalized solutions, determining how best to meet the needs of our members while striving to (i) help Humana and its partners understand social determinants of health and their prevalence in our communities; (ii) convey how such determinants actualize into social needs that limit or prevent health care; and (iii) create impactful care solutions that account for our members specific health-related social needs. That has meant getting to know our members better and the daily health-related challenges they're facing in order to connect them to people and organizations who can support them – not only in their clinical needs, but also in their individual health-related social needs,

such as getting access to healthy food, helping to connect them socially and addressing their housing needs. With community-based organizations and healthcare practices, we are creating evidence-based, scalable and financially-sustainable solutions to improve population health at a local level. We've scaled social determinants of health screenings across our business, which has impacted millions – **connecting those in need to community resources and support.**

Because we know social determinants of health play a significant role in addressing health needs, we have developed a variety of programs, services, benefits and resources for members and the public. **Our Far From Alone campaign, with many partners, strives to improve the mental health and wellness of others by increasing social connectedness and reducing feelings of loneliness.** The campaign drives awareness, action, and advocacy in support of addressing this important social determinant of health. Learn more about our Far From Alone campaign, and how you can get involved, at its website <https://farfromalone.com>.

Access to Healthcare

Value-Based Primary Care Goal
Expand Geographic Presence

We're working to grow and expand our geographic presence in value-based primary care to provide more access and high-quality care to patients, including those in underserved areas. **We ended 2021 with 206 primary care centers, representing a 32% increase over the prior year.**

Access to Healthcare

State Medicaid Goal
Increase Medicaid Footprint

We're working to expand the number of our state-based Medicaid contracts to deliver care to more individuals of this vulnerable population. **As of December 31, 2021 we had Medicaid contracts in six states: FL, IL, KY, OH, SC, and WI.**

For Our Business and the Collective Healthcare System

Throughout our operations, we are dedicated to ensuring that every business decision we make reflects our commitment to improving the health and well-being of our members and patients, our associates, the communities we serve, and our environment. Our holistic, integrated approach to care and longstanding commitment to caring for vulnerable populations also afford us a unique opportunity to promote health equity and address the effects of health disparities in the U.S. healthcare system. We have established policies and programs that illustrate our commitment to responsible business practices that lead to a more efficient, equitable and sustainable healthcare system.

Our suppliers are essential to delivering services within our business, which is why **we incorporate ESG principles into our procurement strategy - ensuring a fair and equitable approach to procurement.** We understand that partnering with diverse suppliers and small businesses, and engaging with them to support common ESG goals, can lead to future sustainability and a reduction in environmental costs. We also understand that inclusive procurement practices deliver broad societal benefits by creating economic opportunities for traditionally underserved or underrepresented groups. That's why we've made it a priority and strive to attract qualified, certified suppliers who reflect our customers, associates and communities we serve. Leveraging these suppliers now and in the future is a win-win for everyone.

Our Supplier Diversity Program promotes an inclusive approach to procurement that ensures we invest our dollars with a balance of partnerships with historically underutilized businesses. We also support the growth of small and diverse-owned businesses by being a resource partner for them, and during 2021 we launched a Supplier Diversity Mentor-Protégé program. The program is a 12-month pilot with half-day, onsite seminars featuring leadership from across our organization exploring topics impacting business growth and operations of small and diverse businesses. The program is designed to identify and overcome barriers that typically inhibit or restrict the success of small and diverse businesses and better position them for growth, sustainability and inclusion.

We also survey suppliers annually through a sustainability scorecard that addresses sustainability, diversity practices and supplier performance. The scorecard is distributed at year-end to our top 50 Prime Suppliers (top spend suppliers) and we typically receive a 25-30% overall spend response rate. We also hold our suppliers accountable for complying with our Company's Standard of Excellence and Ethics Every Day policy – to the same degree as our associates.

Our governance practices and policies reflect strong controls that provide a solid foundation for our continued success. We are committed to supporting the delivery of consistent high-quality care, promoting efficient outcomes in the healthcare system and ensuring that healthcare remains affordable for all members and patients. Further, in a healthcare industry increasingly driven by quality, we have a corporate Quality Improvement (QI) program – with practicing network physicians as members of various quality subcommittees – to monitor, evaluate and facilitate improvement in the quality of health care services provided to our members. The QI program is overseen by our Corporate Quality Improvement Committee (CQIC), which among other things, promotes alignment to the third dimension of

quality (experience and outcomes) through collaboration with stakeholders, personal accountability and speaking up when quality does not meet our standards.

Our associates are integral to running our Company responsibly and key to our ethics and compliance practices. That's why all Humana associates and contractors are required to complete an annual ethics and compliance training, and why our Enterprise Compliance team places an emphasis on communicating about ethics, compliance and risk in an intentional way, throughout the year. Our Company is also committed to building digital care delivery operations and leveraging key insights from enterprise analytics. Integrating these critical capabilities across the organization will further accelerate our Company's move toward differentiated experiences for our customers at the intersection of healthcare and lifestyle, tailored especially to the needs of seniors. We recognize that our emphasis on technology comes with great responsibility as our customers trust us with keeping their information safe. To that end, we are proud to be an industry leader in the adoption of principles and governance to guide our implementation of emerging technologies.

Star Ratings Goal

Continue Leadership of Members in Plans with 4+ Star Rating

Our commitment to quality of care, patient-centered clinical outcomes and customer service is reflected in the consistent strength of our plan's Star Ratings.

Membership in plans with 4+ Star Rating¹: 4.8 million members (2022); 4.1 million members (2021); 3.7 million members (2020)

For the Environment

We know that a strategic focus on environmental sustainability is critical to fulfilling our mission of helping people achieve lifelong well-being. The better we do at protecting the health of our environments, including our operations, supply chain, and communities around us, the better we can do at positively supporting people on their health journeys. We believe that our demonstrated commitment to environmental sustainability not only positions us to offer reliable and cost-effective service to our customers, but also embodies the principle of an intrinsic link between the health of our planet, our business, and the services we provide.

As a services company, **our direct environmental impacts are concentrated within our internal operations**. As such, our focus is on areas where we feel we can make the most impact: energy, emissions, and waste. We augment these initiatives with a broader effort to conserve other resources such as water, manage our real estate footprint, and collaborate with our stakeholders – namely our associates – to actively embrace sustainability. **We understand that climate change impacts pose risks and opportunities for our business and seek to manage such impacts** in several ways, including: continuous strengthening of our already robust business continuity program, investing in energy management and efficiency projects and applying financial incentives to support efforts toward reducing our environmental footprint. We also set challenging environmental targets, as shown below, that promote collaboration with vendors and associates to achieve them. These efforts mitigate risks and demonstrate our commitment by validating the intrinsic link between environment and well-being.

Our Workplace Experience team, overseen by our Chief Administrative Officer, is responsible for day-to-day planning, coordination and implementation of the Company's operational environmental sustainability policies, including those around energy management and climate-change mitigation/ adaptation. The Workplace Experience team also leads initiatives toward achieving environmental targets in addition to tracking/reporting progress and assessing opportunity toward setting new climate-change mitigation/adaptation targets.

We are now working with a global leader in the digital transformation of energy management and automation, to create a more robust next generation goal that will align with the Science Based Targets initiative (SBTi) to address climate change. **We understand that a path forward to net zero emissions is important to our collective future and we're analyzing tactics, appropriate to our business, that allow us to contribute to net zero goals.** We expect to publicly announce our new SBTi aligned environmental goal in late 2022. We encourage you to review our Environmental Sustainability Policy Statement and our 2021 CDP Report to learn more about our sustainability efforts and areas of concentration.

Humana Pharmacy Goal

TRUE Certified Zero-Waste Site

Our West Chester, OH distribution center is working to achieve a 90% waste diversion rate (WDR) for its production materials by the end of 2022, becoming Humana's first TRUE certified site.

2021 WDR: 89%

Target WDR: 90%

Paper Reduction Goal

Increase Adoption of Digital Materials

We're working to increase the digital adoption rate (DAR) among our medical plan members, encouraging them to receive more of their information from us online instead of on paper, and **we plan to announce our goal metrics in Spring 2022.**

ENVIRONMENTAL SUSTAINABILITY INITIATIVES

Greenhouse Gas (GHG) Emissions Reduction

- We achieved our goal to reduce greenhouse gas emissions by 2.1% year-over-year (from a 2017 baseline) by the end of 2022 and are now pushing to go beyond our baseline measure. In 2021, keeping in line with best practices around goal setting, we expanded our goal boundary to include all Humana owned¹ and leased properties and recalculated our goal progression over the last five years. Our emissions goal results² ending 2021 reached 16%.
 - ✓ We offer our associates new workstyle options and alternative transportation options, engage in partnerships and programs designed to reduce emissions.
 - ✓ We put our buildings into "hibernation" to conserve energy while our associates were working from home during the pandemic. We used this opportunity to expedite repairs and replace equipment and infrastructure.
 - ✓ We calculate GHG emissions in accordance with the methodologies outlined by the GHG Protocol.
 - ✓ We provide a full report of our yearly energy consumption and reduction efforts within the Global Reporting Initiative (GRI) Content Index. We report our GHG initiatives to CDP and utilize a third-party assurance contractor to provide limited assurance verification of our information. We also align our reporting to the framework established by the Task Force on Climate-Related Disclosures (TCFD).

Waste Reduction

- **Absolute Target:** 60% waste diversion rate (WDR) of waste to landfills via reduction and recycling efforts at our portfolio sites where Humana and our vendors manage waste recycling services, by the end of 2022. We not only achieved our goal early – we exceeded it – at a WDR of 65%. In 2021, keeping in line with best practices around goal setting, we expanded our goal boundary to include certain acquisitions¹ where we have direct payment and available frequency data.²
 - ✓ Humana Pharmacy, our mail-order pharmacy, engages in medical waste reduction efforts by donating unused prescription medication – which would otherwise be incinerated – to nonprofit organizations that provide free healthcare, dental care and prescription medication to individuals who are uninsured or underinsured.
 - ✓ We partner with Georgia Pacific to recycle and reuse our baled empty pill bottles, pill bottle caps, cardboard and shrink wrap.
 - ✓ We promote and track our reduction and recycling efforts and make it convenient for our associates to recycle in our facilities. We also report our waste reduction initiatives to CDP and utilize a third-party assurance contractor to provide limited assurance verification of our information.

Energy Reduction

- We assess and make investments in renewable energy sources when and where it makes sense, environmentally and financially.
 - ✓ We've installed solar panels on the rooftop of an owned facility.
 - ✓ Our fleet is greener because our mobile marketing offices – vans equipped with WiFi, cameras and more – have been fitted with solar panels to reduce energy and power to operate the vehicles.
- We incorporate standards from both the ENERGY STAR Program and the U.S. Green Building Council's LEED standards (Leadership in Energy and Environmental Design) into the design of new construction projects.
 - ✓ We proudly have 31 ENERGY STAR certified facilities within our portfolio sites.
 - ✓ Our data centers now have new energy-efficient cooling units and smart flooring to distribute air more efficiently. Both data centers are ENERGY STAR certified.
 - ✓ We continue working toward 100% replacement of fluorescent lights with LED lights across our portfolio sites.

¹ Kindred at Home is excluded from the re-baselining of GHG emissions and waste diversion.

² 2021 results described herein have been estimated. The final data will be published on our website (www.Humana.com) when available, which is anticipated during the second quarter of 2022.

ETHICAL SUSTAINABILITY INITIATIVES

Ethics & Compliance

- Our associates are the key to ethics and compliance.
 - ✓ We have an Enterprise Compliance team that regularly communicates and engages with associates on ethics and compliance topics throughout the year.
 - ✓ We require all associates (including executive officers and independent directors) and contractors to complete an annual training course on ethics and compliance matters.
 - ✓ We enforce Standards of Conduct and a Compliance Policy, which are specifically designed for our contracted healthcare providers and third parties in effort to deter fraud, waste and abuse.
- Humana is an industry leader in the adoption of principles and governance to guide its implementation of emerging technologies.
 - ✓ We govern our use of Artificial and Augmented Intelligence according to industry-leading principles.
 - ✓ We have interdisciplinary committees that establish governance over the deployment and quality of Artificial and Augmented Intelligence models.
 - ✓ We have signed the EqualAI pledge committing to ensuring our Artificial and Augmented Intelligence tools do not incorporate unintentional bias, and require all of our Artificial or Augmented Intelligence models that inform decisions about individuals to be reviewed to detect inadvertent bias. We also ask our vendors who utilize Artificial and Augmented Intelligence tools to sign the EqualAI pledge or another similar pledge.

Data Privacy

- We are committed to continuously enhancing and strengthening our technology infrastructure and security protocols.
 - ✓ We employ best-practice precautions to safeguard information and protect our members' data. We deploy defensive practices against the ever-evolving cyber threat landscape by measuring and maturing our cybersecurity capabilities and actively monitoring risks posed by threat actors.
 - ✓ We have established formal data governance, which includes accountability, oversight, processes and controls to ensure our data usage transparency and non-repudiation.
 - ✓ We refresh our data privacy and security policies at least annually.
 - ✓ We provide Company-wide cyber security training to associates, led by our Enterprise Information Protection team, on how to avoid security vulnerabilities and equip them with the necessary tools to protect Company data and to reduce risk. We also test their knowledge through internal phishing campaigns – tracking and reporting aggregated outcomes to leadership.
 - ✓ We report data breaches, as required by law, to the U.S. Department of Health and Human Services (HHS), Office for Civil Rights (OCR). Our reports are publicly available, free of charge, and can be obtained through the OCR Portal at: <https://ocrportal.hhs.gov/ocr/breach>
 - ✓ We engage an independent third party audit firm to perform an Annual Service Organizational Controls (SOC) 2 audit of enterprise claims platforms within the following Trust Services Criteria: availability, confidentiality and security.

Safety & Security

- We integrate a culture of safety and security into all aspects of our business to provide our associates, contractors, members and visitors a safe and secure work environment – we are committed to protecting people and safeguarding key assets, properties and information.
94% of associates feel safe and protected from physical risks while working.
 - ✓ We have an Enterprise Safety and Security Policy that applies to our associates, facilities (owned or leased), and anyone requesting facility admittance regardless of relationship.
 - ✓ We maintain and utilize the following resources to manage/mitigate occupational health and safety: Environmental Health and Safety Manual, Incident Reporting System, Associate Safety Handbook and Associate Emergency Preparedness Training.
95% of associates trust Humana would take appropriate action if a physical safety or security concern/incident was reported.
 - ✓ Our safety and security team periodically performs on-site compliance audits to ensure safety plans and practices are implemented, in addition to providing training tools and information.

Corporate Responsibility Awards and Recognition

We are pleased to have received recognition for our 2021 corporate responsibility and ESG efforts and we appreciate the acknowledgement of our commitment to inspiring health and well-being. Highlighted below are just a few of our valued achievements, however a complete list of awards and recognition is available on our website at www.humana.com – from there click “Corporate Responsibility” and then click “See Our Awards.”

Board Evaluation Practices

The Board is committed to a rigorous self-evaluation process. Through evaluation, directors annually review the performance of the Board and each committee, as well as their own individual contributions, including areas where the Board feels it functions effectively, and most importantly, areas where the Board can improve. The Nominating, Governance & Sustainability Committee, with participation from our Chairman and Chief Executive Officer, initiates the annual Board evaluation process. We believe that having a review process for each group helps to (i) ensure an adequate representation of requisite skills; (ii) encourage high levels of engagement from directors; and (iii) strengthen the overall effectiveness of our Board. Results of the evaluations are shared with the Chairman of the Board and the Chairman of the Nominating, Governance & Sustainability Committee and then later discussed with the entire Board in an aggregated manner, with agreed upon actions and improvements then implemented and monitored for effectiveness.

Board Evaluation

The Board evaluation typically consists of a written questionnaire containing qualitative scaled and open-ended questions related to the effectiveness of the Board during the prior year. The questionnaire hones in on specific areas of responsibility and critical attributes of the Board in order to solicit candid feedback from each director. The questionnaire also seeks practical input as to what the Board is doing well, areas in which the Board could improve and any undertakings that the Board should commence or terminate. Every third year, this written evaluation process is supplemented by oral interviews and an analysis of Board and committee effectiveness conducted by an independent consultant.

Director Self-Evaluation

The director self-evaluation requires each director to honestly reflect upon and carefully consider his or her performance based on key characteristics that are expected of all board members. The self-evaluation also allows directors to provide additional or updated information regarding their skills and qualifications which in turn helps the Nominating, Governance & Sustainability Committee make future assessments and determinations regarding Board composition. The Company encourages directors to participate in continuing education programs focused on the Company's business and industry, their committee roles and responsibilities, as well as legal and ethical matters. Annually, the Board will meet for purpose of furthering their education through external guest speakers to gain insights into key issues facing the industry and the Company, to supplement management's views and perspectives.

Committee Evaluation

Each of our Board committees engages in an annual performance evaluation and a general charter adequacy review. Each committee is responsible for determining the manner of evaluation and for carrying out the evaluation. Further, the Board evaluation questionnaire includes a section specifically concerning Board committee structure and the performance and effectiveness of each committee, which is an opportunity for board members to provide feedback on each committee, regardless of their individual committee membership.

Director Independence

The Guidelines contain standards to assist the Board in its determination of director independence. In addition, to qualify as independent under the Guidelines, the Board of Directors must affirmatively determine that a director has no material relationship with the Company, other than as a director.

Pursuant to the Guidelines, the Board undertakes an annual review of director independence. During this review, the Board considers transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates, including transactions or relationships that are reported under "Certain Transactions with Management and Others" in this proxy statement. As provided in the Guidelines, the purpose of this review is to determine whether any such transactions or relationships are inconsistent with a determination that a director is independent.

In the course of this review for the current year, the Board specifically analyzed and discussed several matters:

- (1) a relationship between the Company and Fiserv Solutions, Inc., a subsidiary of Fiserv, Inc., or Fiserv, for which Frank. J. Bisignano, one of our former directors, serves as an executive officer and a director;
- (2) a relationship between the Company and Pfizer Inc., or Pfizer, for which Frank A. D'Amelio, one of our current directors, serves as an executive officer;
- (3) a relationship between the Company and Cerner Corporation, or Cerner, for which David T. Feinberg, M.D., one of our current directors, serves as a director and an executive officer.

- (4) a relationship between the Company and Howard University and the Howard University Healthcare system, or Howard, for which Wayne A. I. Frederick, M.D., one of our current directors, serves as an executive officer;
- (5) a relationship between the Company and Chrysalis Ventures, LLC, or Chrysalis, for which David A. Jones, Jr., one of our current directors, serves as Chairman and Managing Partner and in which Mr. Jones, Jr. has a financial interest;
- (6) a relationship between the Company and Foundation Radiology Group PC, or Foundation Radiology, for which Mr. Jones, Jr., one of our current directors, served as a director during part of 2021, and of which Chrysalis Ventures, LLC has an investment interest; and
- (7) financing arrangements between the Company and companies that are affiliated with certain of our directors.

Fiserv. In 2021, we contracted for certain marketing and advertising services from Fiserv in connection with member communication materials for which we paid approximately \$12.15 million, which is comparable to other non-affiliated vendors for the provision of similar services, is not material to the Company, and does not represent a direct or indirect material interest to Mr. Bisignano.

Pfizer. The relationship between the Company and Pfizer includes a negotiated rebate based on the volume of prescriptions of Pfizer drugs obtained by Humana members, which volume includes claims paid by Humana for our members and the co-payments paid by our members. Payments to Humana from Pfizer result from activity with many intermediaries over whom Humana exercises no control (i.e., the providers who prescribe these medications, the distributors who sell to the retailers, and the retailers from which our members get prescriptions). In 2021, the Pfizer rebates amounted to approximately \$71.3 million, substantially all of which were passed through to our members in the form of lower premiums and/or higher benefits. Our subsidiary, Humana Healthcare Research, Inc. or HHR, has also contracted with Pfizer to complete various research studies at commercial rates and following our standard protocols; HHR received approximately \$250,750 in fees from Pfizer for this service in 2021. The Company also received approximately \$254,250 from Pfizer during 2021 related to hanger rental and other associated aircraft incidentals. The relationships described herein did not represent a direct or indirect material interest for Mr. D'Amelio.

Cerner. Cerner has a license subscription contract with our subsidiary, Humana Digital Health and Analytics Platform Services, Inc., or HDH&A. In 2021, Cerner paid HDH&A approximately \$6.5 million in associated licensing, professional service and maintenance fees, which is comparable to other non-affiliated customers for the provision of similar services. Our subsidiary, Conviva Medical Center Management, LLC, has a database subscription contract with Cerner for which it paid Cerner approximately \$7,000 in associated fees during 2021, which is comparable to other non-affiliated customers for the provision of similar services. The relationships described herein are not material to the Company and do not represent a direct or indirect material interest to Dr. Feinberg.

Howard. The relationship between the Company and Howard includes arrangements between the Howard University healthcare system in which the Company paid approximately \$314,405 in medical claims during 2021. Additionally, the Company paid \$25,000 to Howard's School of Business, Career Services for participation in Howard's career recruitment program and sponsorship of a Howard business conference. The relationships described herein did not represent a direct or indirect material interest for Dr. Frederick.

Chrysalis. In 2021, we contracted for services to be provided by certain companies in Chrysalis' investment portfolio. In each case, the amounts paid under these arrangements were comparable to those for other non-affiliated vendors, were not material to the Company, and did not represent a direct or indirect material interest for Mr. Jones.

Foundation Radiology. Foundation Radiology, a multi-institutional radiology services group, serves as a provider in our network, for which we paid approximately \$1.26 million medical claims during 2021, which is an amount that is comparable to other non-affiliated providers for the provision of similar services, is not material to the Company, and does not represent a direct or indirect material interest for Mr. Jones.

Financing Arrangements. Certain of our non-employee directors are partners, shareholders and/or officers of companies that have commercial paper programs or other financing arrangements in which we participate in the ordinary course of business. Payments to or from such companies constituted less than the greater of \$200,000 or 1% of each of Humana's and the recipient's annual revenue, respectively, in each of the past three years.

At the conclusion of its review for the current year, the Board affirmatively determined that in each case the relationship between the Company or its affiliate and each director-related entity was not material, was below the thresholds for independence prescribed by the NYSE, and did not impact the independence of any of our directors. Directors recused themselves from the independence assessment as the matter was relative to himself or herself. Consistent with these considerations, and based on its review of director independence in light of the standards contained in the Guidelines, the Board determined that each member of the Board of Directors (except Mr. Broussard, as a current employee of the Company) is independent.

Committee Membership and Attendance

The Board of Directors has the following standing committees: Audit; Organization & Compensation; Nominating, Governance & Sustainability; Executive; Technology and Investment. Only directors meeting the applicable SEC and NYSE director independence standards and Internal Revenue Code “outside director” criteria may serve on the Audit Committee, the Organization & Compensation Committee, and the Nominating, Governance & Sustainability Committee. Each standing Board committee operates pursuant to a charter, which may be viewed on our website at www.humana.com. Audit Committee

Committee Responsibilities

Pursuant to its charter, the Audit Committee:

- assists the Board of Directors with the oversight of the integrity of our financial statements and disclosures and internal controls, our compliance with legal and regulatory requirements, the independent registered public accounting firm’s qualifications and independence and the performance of our internal audit function and the independent registered public accounting firm;
- bears responsibility for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm engaged to prepare the audit report or perform other audit, review or attest services;
- reviews with the independent registered public accounting firm, our internal audit department, and our financial and accounting personnel, the effectiveness of our accounting and financial controls and, where appropriate, makes recommendations for the improvement of these internal control procedures;
- reviews the scope, funding and results of our internal audit function, including the independence and authority of our reporting obligations, the proposed audit plans for the year, and the coordination of these plans with the independent registered public accounting firm;
- reviews the scope, funding and results of our Enterprise Risk Management program and compliance program, including receiving, at least quarterly, an update from our Chief Risk Office and internal compliance department regarding any significant matters regarding our risk management and compliance with regulatory requirements and contracts with government entities, respectively;

- collaborates with the Technology Committee to regularly receive updates on risks, and risk mitigation measures, related to Company's information technology, internal controls, information security, cyber security, business continuity and disaster recovery programs;
- reviews the financial statements and other information contained in our Annual Report and other reports to stockholders with management and the independent registered public accounting firm to determine that the independent registered public accounting firm is satisfied with the disclosure and content of the financial statements to be presented to the stockholders and reviews any changes in accounting principles;
- confers independently with our internal auditors, Chief Risk Officer, internal compliance department, key members of management, and the independent registered public accounting firm;
- determines and approves the appropriateness of the fees for audit and permissible non-audit services performed by the independent registered public accounting firm;
- discusses with management our compliance with applicable legal requirements and with our internal policies regarding related party transactions and conflicts of interest;
- discusses our policies with respect to risk assessment and risk management;
- maintains free and open means of communication between the members of our Board of Directors, the independent registered public accounting firm, our internal audit department, our Chief Risk Officer, our internal compliance department, and our financial management; and
- annually evaluates its performance.

Corporate Governance Determinations

The Board of Directors has determined that each of the members of the Audit Committee at February 16, 2022 is independent according to SEC and NYSE requirements, and each is financially literate, as defined in the NYSE listing standards. The Board of Directors has determined further that Messrs. D'Amelio and Garratt and Dr. Bono each meet the definition of "audit committee financial expert." PricewaterhouseCoopers LLP, our independent registered public accounting firm, reports directly to the Audit Committee. No member of the Board's Audit Committee serves on the audit committees of more than three publicly traded companies. The Report of the Audit Committee for the year ended December 31, 2021, is set forth in this proxy statement under the caption "Audit Committee Report."

Organization & Compensation Committee

Committee Responsibilities

Pursuant to its charter, the Organization & Compensation Committee:

- reviews and approves our goals and objectives relevant to the compensation of our CEO, evaluates the CEO's performance in light of those goals and objectives, and, either as a Committee or together with the other independent directors, determines and approves the CEO's compensation level based on this evaluation;
- review and approves all elements of compensation paid to our current or prospective executive officers, including without limitation, base compensation, incentive-compensation plans and equity-based plans, employment, change in control or severance programs and agreements, and any special compensation or benefits, including supplemental retirement benefits and any perquisites;
- approves equity-based grants to our executive officers and other associates;
- reviews and discusses with management the Company's compensation plans and policies for all employees (including the Named Executive Officers) with respect to risk management and risk-inducing incentives;
- ensures preparation of the Compensation Discussion and Analysis and the Compensation Committee Report as required by SEC regulations;
- monitors compliance of executive officers and non-employee directors with relevant stock ownership guidelines;
- reviews with management periodically, as it deems appropriate, management succession and inclusion and diversity practices;
- administers our Executive Management Incentive Compensation Plan and other substantially similar or successor incentive compensation plans; and
- annually evaluates its performance.

Scope of Authority, Processes and Procedures

The Organization & Compensation Committee acts on behalf of the Board of Directors to establish the compensation of our executive officers and provides oversight of our compensation philosophy, as described in this proxy statement under the caption “Compensation Discussion and Analysis.” The role of the executive officers and the outside compensation consultant in establishing executive compensation is discussed in this proxy statement under the caption “Compensation Discussion and Analysis.” Other than routine administrative matters and the ability of our CEO to approve grants of equity awards subject to certain individual and annual thresholds, no executive compensation decisions are delegated to management.

Compensation Committee Interlocks and Insider Participation

No member of the Organization & Compensation Committee: (i) is or has ever been an officer or employee of the Company; or (ii) is or was, during the last fiscal year, a participant in a “related person” transaction requiring disclosure under Item 404 of the SEC’s regulations (see discussion in this proxy statement under the caption “Certain Transactions with Management and Others”); or (iii) is an executive officer of another entity at which one of our executive officers serves either as a director or on its compensation committee.

Corporate Governance Determinations

During 2021, James J. O’Brien (Chair), Frank J. Bisignano (until April 2021), Wayne A. I. Frederick, M.D. and David A. Jones, Jr. served as members of our Organization & Compensation Committee. Considering (i) the source of each director’s compensation, including any consulting, advisory or other compensatory fees paid by the Company; and (ii) whether each director has an affiliate relationship with the Company, a subsidiary of the Company or an affiliate of a subsidiary of the Company, the Board has determined that each member of the Organization & Compensation Committee at February 16, 2022, is independent, as defined by the SEC and the NYSE, and is considered to be an “outside director” under Section 162(m) of the Internal Revenue Code.

Compensation Risk Determination

In early 2022, the Organization & Compensation Committee reviewed management’s assessment of the risks associated with the Company’s compensation practices and policies for employees, including a consideration of the counterbalance of risk-taking incentives and risk-mitigating factors in Company practices and policies. Following a review of this assessment, the Organization & Compensation Committee determined that the risks arising from the Company’s compensation practices and policies are not reasonably likely to have a material adverse effect on the Company.

Nominating, Governance & Sustainability Committee

Committee Responsibilities

Pursuant to its charter, the Nominating, Governance & Sustainability Committee:

- recommends to the full Board criteria for the selection and qualification of the members of the Board;
- evaluates and recommends for nomination by the Board candidates to be proposed for election by the stockholders at each annual meeting;
- seeks out and assists in the recruitment of highly qualified candidates to serve on the Board;
- recommends for Board approval candidates to fill vacancies on the Board which occur between annual meetings;
- develops, periodically reviews and recommends to the Board revisions to the Guidelines;
- studies and reviews with management the overall effectiveness of the organization of the Board and the conduct of its business, and makes appropriate recommendations to the Board;
- reviews the overall relationship of the Board and management;
- reviews issues and developments pertaining to corporate governance;
- reviews our public policy and political spending practices through regular reviews of our policy on political expenditures, expenditures and payments made with corporate funds, and overall political activity, including review of our Political Contributions and Related Activity Report;
- reviews the Company’s programs and policies relating to significant ESG and sustainability matters, and periodically receive updates from the Company’s management regarding significant ESG and sustainability undertakings; and
- annually evaluates its performance.

Executive Committee

Pursuant to its charter, the Executive Committee possesses the authority to exercise all the powers of the Board of Directors except as otherwise provided by Delaware law and our Bylaws during intervals between meetings of the Board. The Executive Committee does not have the power, to, among other things, declare a dividend, issue stock, adopt a certificate of merger or sell substantially all of the Company's business.

Investment Committee

Pursuant to its charter, the Investment Committee establishes investment objectives and policies for our various investment portfolios and investment options available under various employee benefit plans, reviews investment results, and annually evaluates its performance.

Technology Committee

Pursuant to its charter, the Technology Committee represents and assists the Board of Directors with the oversight of:

- our process, awareness, evaluation and perspective on potentially disruptive technologies and convergences that may represent threats or opportunities for our business operations;
- our process and perspective on strategic technology capabilities that enable transformational business capabilities;
- our process, execution roadmaps, requisite capital, progress in delivering technology-enabled transformational capabilities and their related outcomes; and
- management's focus on organizational, talent and cultural enablers required to ensure achievement of those outcomes.

The Technology Committee has five regular meetings each year, during which senior leadership briefs the Committee and board members on matters relating to the Company's strategic technology capabilities, including information security capabilities. The Technology Committee may also assist the Audit Committee in its oversight of our information technology internal controls, cyber security, business continuity and disaster recovery programs. Senior leadership provides briefings to the Audit Committee and Technology Committee on information technology controls and risk at least once per year, and separately update the full Board of Directors on cyber security matters at least once per year. Briefings are also provided as-needed in response to industry or company specific developments or material events.

Corporate Governance Policies

Majority Vote Policy

Under our Bylaws, a director nominee will be elected if the number of votes cast for the nominee exceeds the number of votes cast against the nominee. In contested elections, those in which a stockholder has nominated a person for election to the Board, the voting standard is a plurality of votes cast. The Board has also adopted a policy to require the Board to nominate for election only nominees who agree that, if they are elected to the Board, they will tender an irrevocable resignation conditioned on, first, the failure to achieve the required vote for re-election at any future meeting at which they face re-election, and second, the Board's acceptance of their resignation following that election. In addition, the Board may fill director vacancies and new directorships only with candidates who agree to tender, promptly following their appointment to the Board, the same form of resignation tendered by other directors, as described above. The Nominating, Governance & Sustainability Committee will submit a recommendation for prompt consideration by the Board whether to accept the resignation. Any director whose resignation is under consideration will abstain from participating in any decision regarding that resignation. The Bylaws also require stockholder nominees for director election to notify the Company whether or not such nominees intend to tender the same type of resignation required of the Board's director nominees.

Change in Director's Primary Position

The Board has adopted a policy requiring that a director whose primary position or affiliation changes must promptly notify the Board and the Nominating, Governance & Sustainability Committee of the change so that a determination may be made as to the value of his or her continued service on the Board.

Director Stock Ownership Policy

Our Board believes that directors should be stockholders and have a significant personal financial stake in the Company. Consequently, the Board has adopted the following stock ownership guidelines:

- Each non-employee director must maintain a minimum equity ownership level of five times the annual cash retainer.

- Shares deferred at the election of the director are considered owned for purposes of the calculation of the ownership requirement.
- Any Shares owned by a non-employee director (or Shares received upon the exercise of options or vesting of restricted stock or restricted stock units, less an amount to cover the exercise price and/or current tax liabilities) must be held by the director until the minimum equity ownership level is reached and thereafter maintained.
- Once the minimum equity ownership level has been achieved, any Shares received upon the vesting of restricted stock or restricted stock units, less an amount to cover current tax liabilities, must be held by the director until one year following the vesting date.

Compliance with these guidelines is monitored by the Organization & Compensation Committee.

Director Attendance

The Board has developed a number of specific expectations of directors to define their responsibilities and to promote the efficient conduct of the Board's business. With respect to the level of commitment expected of directors and related attendance protocols, as part of the Guidelines, the Board formally adopted a policy that all directors should make every effort to attend all meetings of the Board and the Committees of which they are members, and the Company's Annual Meeting of Stockholders. Attendance by telephone or video conference may be used to facilitate a Director's attendance.

During 2021, apart from Committee meetings, the Board of Directors met 10 times. All directors attended at least 75% of the scheduled Board of Directors' meetings and meetings held by Committees of which they were members. All director nominees serving as directors at that time attended the Annual Meeting of Stockholders held on April 22, 2021.

Executive Sessions of Non-Management Directors

In 2021, our non-management directors held regularly scheduled, formal executive meetings, separate from management and led by our Chairman. Additional executive sessions of the Board are held as necessary or appropriate or upon the request of the Chairman, the Nominating, Governance & Sustainability Committee or any two other non-management directors. In addition, our non-management directors who qualify as independent within the meaning of our director independence guidelines meet in executive session at least once annually, and, in fact, met in 2021 in connection with each regularly scheduled Board of Directors meeting.

Code of Ethics and Code of Business Conduct

The Company has adopted the "Code of Conduct for the Chief Executive Officer and Senior Financial Officers," which we refer to as the Executive Code of Ethics, violations of which are reported to the Audit Committee. In addition, we operate under the omnibus Humana Inc. Ethics Every Day, which we refer to as the Code of Ethics, which applies to all associates (including executive officers) and directors. The Humana Ethics Office is responsible for the design and enforcement of our ethics policies, the goal of which is to create a workplace climate in which ethics is so integral to day-to-day operations that ethical behavior is self-enforcing. All employees are required annually to review and affirm in writing their acceptance of the Code of Ethics. The Code of Ethics and the Executive Code of Ethics may be viewed on our website at www.humana.com. Any waiver for directors or executive officers from the provisions of the Code of Ethics or the Executive Code of Ethics must be made by the Board of Directors, and will be disclosed within four days of the waiver on our website at www.humana.com. To see either the Code of Ethics or the Executive Code of Ethics or any waivers to either policy, go to www.humana.com, then click on "Investor Relations," then click on "Corporate Governance," and then click on the relevant link.

Policy Regarding Employee, Officer and Director Hedging

The Company has a policy prohibiting all associates (including executive officers and independent directors) from hedging or pledging transactions using Company stock, including: (1) engaging in short sales of Company securities; (2) engaging in transactions in puts, calls or other derivative securities designed to hedge or offset any decrease in the market value of the Company's equity securities, on an exchange or in any other organized market; or (3) engaging in certain monetization transactions, including holding Company securities in margin accounts or pledging Company securities as collateral.

Public Policy

Our Company has an active voice on healthcare policy issues that matter most to the people we serve. From Medicare Advantage, TRICARE and home health; to integrated care, Medicaid and healthcare reform – we are committed to advancing public policy that moves us toward a future in which everyone can enjoy lifelong health and well-being.

The Company has also established and sponsors a Political Action Committee (PAC), for which Company associates may voluntarily contribute. The PAC is registered with the Federal Election Commission (FEC) and certain states nationwide as required by applicable law. As a matter of policy, all Company political activities must promote the interests of the Company, and must be made without regard for the private political preferences of Company officers or executives. Furthermore, Humana does not make independent expenditures nor

does it contribute to ballot measure committees. Distributions from the PAC are made to federal and state office candidates (and related election committees) or to other PACs on a non-partisan basis when, like the Company, such persons are solution-oriented and believe in building a high-quality, accessible and affordable health care system. The PAC is also committed to supporting diverse candidates at the state and federal level. While the PAC has its own separate board of directors to oversee its operations, the Company's Board—through its Nominating, Governance & Sustainability Committee—has responsibility for (i) reviewing the political contributions and political activities of the Company and the PAC and (ii) overseeing compliance with the overall policy, process and contribution criteria with respect to such contributions and activities. The Board reviews occur semi-annually, along with semi-annual publication of a Contributions and Related Activity Report (PAC Report). To learn more about our public policy and to review the most recent PAC Report, visit our website at www.humana.com, then click on "About Humana," then click on "Public Policy."

Communication with Directors

Stockholders and other interested parties may communicate directly with our Chairman, non-management directors as a group, or any other individual director by writing to the special e-mail address published on our website. Specifically, interested parties may visit our website at www.humana.com then click on "About Humana," then click on "Contact the Board of Directors," where instructions for contacting these persons are available. All directors have access to this e-mail address. We use the staff of our Corporate Secretary to review correspondence received in this manner and will filter advertisements, solicitations, spam, and other such items. Concerns related to accounting, internal controls or auditing matters are required to be brought immediately to the attention of our Chief Legal Officer and the Board and handled in accordance with procedures established by the Audit Committee with respect to such matters.

Proposal One

Election of Directors

The Board of Directors of the Company, in accordance with the provisions of the Company's Articles of Incorporation and Bylaws, has determined that the number of directors to be elected at the Annual Meeting of the Company shall be thirteen (13). The directors are elected to hold office until the Annual Meeting of Stockholders in 2023 and until a qualified successor is elected.

Each of the nominees has consented to be named as a nominee and agreed to serve if elected. If any nominee becomes unable to serve for any reason (which is not anticipated), the Shares represented by the proxy granted to Messrs. Hilzinger and Broussard may be voted for the substituted nominee as may be designated by the Board of Directors. The Board has established a policy that non-employee directors must retire at the first annual meeting following his or her seventy-third birthday. To encourage director refreshment, there are no exemptions or conditions in this policy.

The following charts and tables show certain information concerning the nominees at March 1, 2022.

Vote Required and Recommendation of the Board of Directors

A director nominee will be elected if the number of votes cast for the nominee exceeds the number of votes cast against the nominee. Shares not present at the Annual Meeting and Shares voting "abstain" or broker non-votes have no effect on the election of directors. Under the Company's Majority Vote Policy, following election to our Board of Directors, a director is required to submit his or her irrevocable resignation to our Board of Directors, conditioned upon (i) the director not achieving the requisite stockholder vote at any future meeting at which they face re-election, and (ii) acceptance of the resignation by the Board of Directors following that election. The Board of Directors has 90 days to determine whether or not to accept the director's resignation and to report this information to our stockholders.

FOR THE REASONS STATED HEREIN, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR ALL NOMINEES.

Director Skills and Qualifications

The Nominating, Governance & Sustainability Committee (“Committee”) regularly assesses the skills and experiences necessary to ensure that the Board has appropriate skill composition to oversee the Company’s long-term business strategy, operations, and risks. The Committee recognizes that our Board should represent a diverse group of individuals who bring a range of experience, skills and other attributes to their individual role on the Board and to the Board as a collective group. On an annual basis, the Committee assesses each Board candidate to determine whether to recommend currently serving directors for reelection to the Board and whether to recommend candidates for initial election to the Board. In assessing a director nominee, the Committee considers the appropriate balance of experience, skills and other qualifications required for service on our Board, including (i) core attributes that are expected of our directors, and (ii) specific skills, experience or qualifications that should be represented collectively on our Board. Although not an exhaustive assignment of skills and attributes, we have highlighted for each director the substantive areas of expertise that they bring to the Board in the biography of each nominee located in the section entitled “Director Nominee Biographies.”

Core Director Attributes

- ✓ Independent under our Guidelines, as well as meeting the independence requirements of, as applicable, the NYSE, SEC, IRS;
- ✓ External public company board service is limited (maximum of three);
- ✓ Risk oversight ability with respect to the particular skills of the individual director;
- ✓ Understanding of and experience with complex public companies or like organizations;
- ✓ Standing and reputation in the individual’s field;
- ✓ Ability to work collegially and collaboratively with other directors and our management team;
- ✓ High integrity and ethical standards; and
- ✓ A commitment to diversity, equity and inclusion (DEI).

Substantive Areas of Expertise

- ✓ CEO or other C-suite experience with significant business acumen;
- ✓ Financial expertise/capital markets experience;
- ✓ Corporate governance/Board of Directors experience;
- ✓ Information technology and digital innovation; data privacy, cyber security, and/or general business compliance;
- ✓ Health care industry experience, including clinical practice;
- ✓ Product design and growth models, consumer marketing/ orientation;
- ✓ Government relations, public policy and regulatory experience; and
- ✓ Strategy development.

The Committee further assesses each director nominee’s ability to devote sufficient time and effort to his or her duties as a director, his or her willingness to consider all strategic proposals, and any core competencies or technical expertise necessary to staff Board committees. This annual assessment may also incorporate responses, as appropriate, from the Board’s annual individual self-evaluations. More information about the Board self-evaluation process can be found in the section entitled “Board Evaluation Process.” The director nominee analysis also helps to determine whether a nominee would meet the criteria for independence set forth in the Guidelines established by the Board and in accordance with independence requirements of the NYSE and the SEC. The Committee has determined that each of our independent director nominees satisfies all of the core director attributes set forth above.

Board Composition and Refreshment

Board Tenure and Refreshment

The Committee and the Board strive to maintain a balance of tenure on the Board. Longer-serving directors bring valuable experience and a deep understanding of our complex business and industry, along with a historical perspective of our long-term successes, challenges and business cycles, and how these past experiences may inform our current strategy. Newer directors are also critical to the advancement of our strategy, bringing new skills and experiences and contributing fresh perspectives. The Board has established a policy that non-employee directors must retire at the first annual meeting following his or her seventy-third birthday. To encourage director refreshment, there are no exemptions or conditions in this policy. The illustrations below depict independence, age and tenure represented in the current composition of our director nominees.

Independence

Age

Our Board has undergone significant refreshment in recent years. Since January 2017, nine new directors have been appointed to our Board. Seven of those directors are standing for election this year, all of whom are independent and joined the Board since 2019, deepening the Board's financial expertise, consumer perspective, healthcare industry experience, technology expertise and C-Suite experience while also building on the Board's focus on diversity.

Diversity

Humana and our Board actively promote and foster a culture of inclusion and diversity to enable an environment where the unique characteristics, backgrounds and beliefs of our teammates can drive the groundbreaking, strategic thinking that gives our Company its competitive edge in a diverse marketplace.

Our Board does not establish specific goals with respect to diversity; rather, the Board's diversity is a consideration in the overall director nomination process and is a component of the overall assessment of the Board's composition and effectiveness. Under the Nominating, Governance & Sustainability Committee Charter, we have further committed to include, and require any third-party search firm that it engages to include, candidates with diversity of race, ethnicity and gender in the slate of candidates considered by the Committee and/or the Board for nomination to the Board. The illustration (at right) depicts certain diversity represented in the current composition of our director nominees.

Identifying Nominees for Directors

The Board has delegated an established screening process for director nominees to the Nominating, Governance & Sustainability Committee, with counsel from our Chairman, our Chief Executive Officer, and outside consultants as appropriate. The goal of the screening process is to assemble a group of potential board members with deep, varied experience, sound judgment, and commitment to the Company's success.

The Committee receives notice of potential candidates through any of the following avenues: (i) Board self-identification; (ii) third-party recommendations; and (iii) stockholder nominations. While director nominees may be presented to the Board for consideration by the Committee through any of these methods, the Board is ultimately responsible for assessing the needs of the Board, appointing candidates to the Board, and nominating candidates for election by our stockholders at our annual meeting. Once the Committee has compiled its group of suitable candidates and conducted appropriate diligence, it then meets with the Board to review the candidates for further consideration.

Board Self-Identification. The Committee regularly assesses the appropriate size of the Board, the areas of expertise required to effectively contribute to the Board process, and whether any vacancies are anticipated. It also annually assesses the director qualification criteria to ensure the Board has appropriate skill composition aimed at the Company's long-term business strategy, operations, risks, thought and perspective. As a result, the Committee may recommend to the Board a need for an additional director, Board refreshment for certain requisite skills and qualifications, and/or suggest the replacement of an existing director for other credible reasons.

Third-Party Recommendations. From time to time, the Committee engages a professional third-party search firm to assist the Board of Directors and the Committee in identifying and recruiting candidates for Board membership.

Stockholder Nominees. The policy of the Committee is to consider properly submitted stockholder nominations for candidates for membership on the Board as described above under "Identifying Nominees for Directors." Stockholder nominations for election to the Board of Directors are governed by specific provisions in our Bylaws, a copy of which is available on our website at www.humana.com. From the www.humana.com website, click on "Investor Relations," and then click on "Corporate Governance," and then click on the link entitled, "Bylaws." The Bylaws require that a stockholder provide written notice of intent to nominate a candidate for director no less than 60 days or more than 90 days prior to the scheduled date of the Annual Meeting of stockholders. If less than 70 days' notice of the Annual Meeting is given, written notice by a stockholder would be deemed timely if made no later than the 10th day following such notice of the Annual Meeting. Any stockholder nominations proposed for consideration by the Committee should include, among other information required by the Bylaws, the nominee's name, qualifications for Board membership and compliance with our Director Resignation Policy discussed in this proxy statement and should be sent to the attention of the Corporate Secretary, Humana Inc., 500 West Main Street, 21st Floor, Louisville, Kentucky 40202.

Board of Directors Nominee Determination

At the recommendation of the Nominating, Governance & Sustainability Committee, the Board has nominated 13 individuals for this year's election. The Board believes that each director nominee possesses and demonstrates the character, integrity, independence, business judgment and all other requisite skills, qualifications and attributes necessary to effectively (i) act in the best interests of the Company and its stockholders and (ii) exercise active and independent oversight of the of the Company's management team, business affairs and assets. As a group, the director nominees' create a diverse, knowledgeable and experienced Board with strong executive experience, financial expertise, knowledge and experience in healthcare, expertise in digital innovation and technology, and consumer orientation necessary to oversee the Company's business and the execution of our strategy.

We believe that the current Board members have a deep commitment to the Company's success, as evidenced by the key qualifications, skills, experiences and diversity of backgrounds of each director described below. The information given in this proxy statement concerning the nominees is based upon statements made or confirmed to the Company by or on behalf of the nominees.

Director, President and
Chief Executive Officer

Bruce D. Broussard, President and CEO, joined Humana in 2011. Under his leadership, Humana has created an integrated care delivery model centered on improving health outcomes, driving lower costs, enhancing quality, and providing a simple and personalized member experience. With its holistic, human care approach, Humana is dedicated to improving the health of the communities it serves by making it easier for people to achieve their best health.

Bruce brings to Humana a wide range of executive leadership experience in publicly traded and private organizations within a variety of healthcare sectors, including oncology, pharmaceuticals, assisted living/senior housing, home care, physician practice management, surgical centers and dental networks. Prior to joining Humana, Bruce was Chief Executive Officer of McKesson Specialty/US Oncology, Inc. US Oncology was purchased by McKesson in December 2010. At US Oncology, Bruce served in a number of senior executive roles, including Chief Financial Officer, President, Chief Executive Officer and Chairman of the Board.

Bruce plays a leadership role in key business advocacy organizations such as the Business Roundtable, the Business Council, and the American Heart Association CEO Roundtable. He is a member of the Board of Directors of HP Inc., and is a member and previous chair of America's Health Insurance Plans (AHIP). Additionally, Bruce serves on the Board of the Trust for the National Mall, a nonprofit philanthropic partner of the National Park Service dedicated to restoring and preserving the National Mall.

The Board believes that Mr. Broussard's wide range of executive leadership experience in publicly traded and private organizations within a variety of healthcare sectors, including oncology, pharmaceuticals, assisted living/senior housing, home care, physician practice management, surgical centers, and dental networks, as well as his in-depth knowledge of the Company's operations, finances and strategy, brings valuable insight to the Board.

Raquel C. Bono, M.D.

Age 65 Director since 2020

Independent Director

Raquel C. Bono, M.D., was initially elected to the Board in September 2020. She is a Principal at RCB Consulting having held this position since October 2019, as well as, Chief Health Officer at Viking having held this position since November 2020. Dr. Bono, a board-certified trauma surgeon and retired Vice Admiral, U.S. Navy Medical Corps, previously served as the Chief Executive Officer and Director for the Defense Health Agency (DHA). In this capacity, Dr. Bono led a joint, integrated combat support agency that enables all branches of the U.S. military medical services to provide health care services to combatant commands in times of both peace and war. Dr. Bono integrated an unprecedented \$50 billion worldwide health care enterprise for the Army, Navy, Air Force, and Marine Corps, composed of 50 hospitals and 300 clinics that provide care to 9.5 million military personnel, oversaw the Department of Defense deployment of the electronic health record, and facilitated the collaboration between the largest federated health systems of the Department of Defense and Department of Veterans Affairs (VA). An American College of Surgeons (ACS) Fellow since 1991, Dr. Bono served on the ACS Board of Governors and the Governors Health Policy and Advocacy Workgroup. She has been honored with the Defense Distinguished Service Medal, three Defense Superior Service Medals, four Legion of Merit Medals, two Meritorious Service Medals, and two Navy and Marine Corps Commendation medals. Dr. Bono also serves on boards of several privately held companies.

The Board believes that Dr. Bono's decorated military service and distinguished and successful career in trauma surgery and healthcare administration bring an important perspective to Humana's Board and further contribute to its strategic composition. Dr. Bono's extensive operational expertise and discipline in managing and advancing healthcare delivery systems will be vital as the Company continues to evolve its clinical and care delivery strategies.

Independent Director

David T. Feinberg, M.D., was initially elected to the Board in March 2022. Dr. Feinberg is the President and Chief Executive Officer and member of the Board of Directors of Cerner Corporation (Cerner) having held these positions since October 1, 2021. In this role Dr. Feinberg focuses on delivering tools and technology that help caregivers optimize the health of their patients and communities.

Dr. Feinberg joined Cerner from Google, where he held the position of Vice President of Google Health since 2019 and led Google's worldwide health efforts, bringing together groups from across Google and Alphabet that used artificial intelligence, product expertise and hardware to tackle some of healthcare's biggest challenges, and was responsible for organizing and innovating Google's various healthcare initiatives. Prior to Google, he served as President and CEO of Geisinger Health where he led an operational turnaround, and pushed the use of new platforms and tools, including an IT system called a Unified Data Architecture that allowed the company to integrate big data into existing data analytics and management systems. During his Geisinger tenure, Dr. Feinberg also introduced programs and services to put a greater focus on precision medicine and better patient care. Prior to Geisinger, Dr. Feinberg worked at UCLA for more than 20 years and served in a number of leadership roles, including President, CEO and Associate Vice Chancellor of UCLA Health Sciences, Vice Chancellor and CEO for the UCLA Hospital System, and CEO of UCLA's Ronald Reagan Medical Center.

Dr. Feinberg earned his undergraduate degree at the University of California, Berkeley. He graduated with distinction from the University of Health Sciences/Chicago Medical School. He completed an internship in pediatrics at Loyola University Medical Center, and residency and fellowship training in psychiatry, addiction psychiatry, and child and adolescent psychiatry at the UCLA School of Medicine. He earned a Master of Business Administration from Pepperdine University. Dr. Feinberg is a member of the Alpha Omega Alpha Medical Honor Society, a Distinguished Fellow of American Psychiatric Association and received the Cancro Academic Leadership Award from the American Academy of Child & Adolescent Psychiatry. Dr. Feinberg also serves on the Board of Directors of Douglas Emmett Inc.

The Board believes that Dr. Feinberg's experience leading healthcare organizations focused on leveraging technology and digital innovation to improve clinical care, including public and private companies, brings valuable insights to the Board and further contribute to its strategic composition. Dr. Feinberg's clinical background, patient-centric mindset, operating experience, and expertise in guiding systems transformations qualify him to offer key perspectives as the Company continues to advance the integration of its clinical systems and care models to improve the customer experience and reduce costs.

Wayne A. I. Frederick, M.D.

Age 50 Director since 2020

Independent Director

Wayne A. I. Frederick, M.D., was initially elected to the Board in February 2020. He is the President of Howard University, having held this position since July 2014. Prior to that Dr. Frederick served as Howard University's Interim President (elected October 2013) after serving as Provost and Chief Academic Officer for more than a year. Following his post-doctoral research and surgical oncology fellowships at the University of Texas MD Anderson Cancer Center, Dr. Frederick began his academic career as Associate Director of the Cancer Center at the University of Connecticut. Upon his return to Howard University, his academic positions included Associate Dean in the College of Medicine, Division Chief in the Department of Surgery, Director of the Cancer Center and Deputy Provost for Health Sciences. He also earned a Master of Business Administration degree from Howard University's School of Business in 2011. Dr. Frederick continues to operate and lectures to the medical students and residents of Howard University's College of Medicine. Dr. Frederick is a fellow of the American College of Surgeons and belongs to numerous surgical organizations, including, the American Surgical Association. Dr. Frederick also serves on the Board of Directors of Mutual of America Life Insurance Co., Forma Therapeutics Holdings, Inc. and Insulet Corporation in addition to a few other privately held companies and charitable organizations.

The Board believes that Dr. Frederick's exemplary career as a leader in medical research, healthcare academics and business administration brings valuable insights to the Board to assist in the advancement of its strategic healthcare goals. Dr. Frederick's extensive healthcare and disease management background will be instrumental to our company's relationships with our members and our physician partners, as Humana continues to innovate in the area of health data analytics.

John W. Garratt

Age 53 Director since 2020

Independent Director

John W. Garratt was initially elected to the Board in February 2020. He is the Executive Vice President and Chief Financial Officer of Dollar General Corporation, having held this position since December 2015. Mr. Garratt joined Dollar General in October 2014 as Senior Vice President, Finance & Strategy and subsequently served as Interim Chief Financial Officer from July 2015 to December 2015. Prior to joining Dollar General, Mr. Garratt held various positions of increasing responsibility with Yum! Brands, Inc., one of the world's largest restaurant companies, between May 2004 and October 2014, holding leadership positions in corporate strategy and financial planning. Mr. Garratt served as Vice President, Finance and Division Controller for the KFC division and earlier for the Pizza Hut division and for Yum Restaurants International between October 2013 and October 2014. Mr. Garratt also served as the Senior Director, Yum Corporate Strategy, from March 2010 to October 2013, reporting directly to the corporate Chief Financial Officer and leading corporate strategy as well as driving key cross-divisional initiatives. Mr. Garratt served in various other financial positions at Yum from May 2004 to March 2010. Prior to his career at Yum! Brands, Mr. Garratt served as Plant Controller for Alcoa Inc. between April 2002 and May 2004, and held various financial management positions at General Electric from March 1999 to April 2002. He began his career in May 1990 at Alcoa, where he served for approximately nine years. Mr. Garratt also serves as a Class B Director of the Federal Reserve Bank of Atlanta.

The Board believes that Mr. Garratt's substantial executive leadership at large public companies, combined with his extensive experience in key areas of finance, accounting, strategic planning and business analytics, supplement existing expertise essential to the Board's oversight function as Humana continues to evolve its population health and care delivery strategies. Mr. Garratt's contributions to organizations across varied consumer-based industries further qualifies him to offer key perspectives as the Company enhances products and capabilities for our members.

Marcy S. Klevorn

Age 62 Director since 2021

Independent Director

Marcy S. Klevorn was initially elected to the Board in February 2021. Ms. Klevorn was formerly the Chief Transformation Officer of Ford Motor Company (Ford) from May 2019 until her retirement in October 2019. In this role, she accelerated the company's transformation by helping to refine its corporate governance systems, facilitate faster adoption of agile teams across the business and ensure process improvements across the enterprise. She also facilitated strategic partnerships with key technology partners and supported the company's diversity efforts. Having joined Ford Motor Company in 1983, Ms. Klevorn served in key executive and leadership roles within the company's information technology organization including Director of the Office of the Chief Information Officer and Group Vice President of Information Technology, where she oversaw the transformation of Ford's IT tools and talent. Ms. Klevorn also served as Executive Vice President and President of Ford Smart Mobility LLC, a division of Ford Motor Company, where she oversaw certain acquisitions and other investments and helped to accelerate the company's plans to design, build, grow and invest in emerging mobility services and global data insight and analytics. Ms. Klevorn currently serves on the Board of Directors of Northern Trust Corporation.

The Board believes that Ms. Klevorn's extensive executive experience and leadership in digital innovation and systems transformation brings valuable insights to the Board as the Company continues to enhance its technology-driven platforms for members and providers. Ms. Klevorn's deep understanding of information technology, cyber security, and systems management and infrastructure, combined with her proven ability to connect systems to strategy execution qualify her to provide key insights in the Company's consumer-focused approach to care.

Director Compensation

2021 Director Compensation Program

During 2021, our directors were compensated pursuant to the following schedule:

Annual Retainer ⁽¹⁾	\$115,000
Non-Employee Chairman of the Board Additional Annual Retainer	\$210,000
Committee Chairman fee per year:	
1. Audit Committee Chair	\$25,000
2. Organization & Compensation Committee Chair	\$20,000
3. All other Committee Chairs	\$15,000
Executive Committee Member fee per year	\$12,000
Common Stock per year (1st Business Day of January) ⁽²⁾⁽⁴⁾	\$165,000 in common stock (variable # of shares)
Charitable Contributions Annual Match	up to \$40,000
Group Life and Accidental Death Insurance — (except Chairman) ⁽⁵⁾	\$150,000 of coverage
Group Life and Accidental Death Insurance — Chairman	\$400,000 of coverage
Business Travel Accident Insurance	\$250,000 of coverage
Restricted Stock Units Granted Initial Date of Election ⁽³⁾	Restricted Stock Unit grant equal to the dollar value of the then current annual stock grant for directors

- (1) The annual cash retainer for each non-employee director is paid in equal amounts on a monthly basis during the service year. If a director ceases service on the Company's Board of Directors during a year, the final cash retainer payment will be for the final month during any portion of which the director serves on the Company's Board of Directors. A non-employee director will receive the full annual cash retainer amount for the initial year in which the director serves on the Company's Board of Directors, regardless of the director's initial date of election.
- (2) The annual common stock retainer is paid in the form of restricted stock units, vests at the end of the year of service related to the retainer, and will be pro-rated for any service of less than the full year in respect of which the award is granted.
- (3) The initial award of restricted stock units is forfeited if the director serves less than one year on the Company's Board of Directors. This initial award is in lieu of the annual common stock retainer for the year in which the director was first elected to the Board, but the director would receive the annual common stock retainer commencing in January of the year following election.
- (4) Pursuant to our revised Directors Stock Retention Policy, each non-employee director must maintain a minimum equity ownership level of five times the annual cash retainer. For additional information, please refer to "Corporate Governance — Corporate Governance Policies — Director Stock Ownership Guidelines" in this proxy statement.
- (5) Coverage amount decreases 50% at age 70.

2021 Compensation of Our Directors

The following table shows the compensation earned by our non-employee directors in connection with their service on our Board of Directors during all or a portion of the 2021 fiscal year:

Marissa T. Peterson	130,000	164,924	—	—	—	774	295,698

- (1) During 2021, Mr. Broussard served as President and Chief Executive Officer of the Company, and therefore, as an employee director, did not earn compensation in connection with his service on our Board. Mr. Broussard's compensation as our Chief Executive Officer is discussed under "Executive Compensation" in this proxy statement.
- (2) Mr. Bisignano did not stand for re-election at the April 22, 2021 Annual Meeting of Stockholders. Compensation disclosed represents amounts earned for service during 2021 prior to his departure from our Board.
- (3) Under the Humana Inc. Deferred Compensation Plan for Non-Employee Directors, which we refer to as the Deferred Compensation Plan, non-employee directors may make an irrevocable election each year to defer compensation paid to them by the Company in the form of cash or stock for services rendered as Board members. For 2021, Ms. Katz, Drs. Bono and Frederick, and Messrs. D'Amelio, Hilzinger, and McDonald each deferred their stock compensation. Refer to footnote 1(c) to the section entitled "Stock Ownership Information — Security Ownership of Directors and Executive Officers" for a disclosure of the number of Shares of our common stock that have been deferred by each director. A director electing to defer cash can choose any of the investment options offered in the Deferred Compensation Plan using Charles Schwab's Retirement Plan Services (other than the Humana Common Stock Fund) or can invest in stock units that have a value relative to that of our common stock. For 2021, Messrs. Garratt, Hilzinger, and McDonald and Mmes. Katz and Peterson each elected to defer a portion or all of their cash compensation under the Deferred Compensation Plan.
- (4) On January 4, 2021, when the fair market value of our common stock was \$409.24, each director in office at that time, other than Mr. Broussard, was granted a restricted stock unit award of 403 Shares, representing the annual grant of approximately \$165,000 in common stock. Ms. Klevorn and Mr. Mesquita each received a restricted stock unit award representing approximately \$165,000 upon their election date, using the fair market value of our common stock on that date (\$378.08) to determine the 436 Shares awarded. The amount shown in column (c) ("Stock Awards") above is the grant-date fair market value times the number of Shares awarded calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) Topic 718.
- (5) Vested restricted stock units with a payout deferral election made by the director accrue quarterly dividend equivalent rights that are reinvested into the director's account as additional restricted stock units and will be included in the final restricted stock unit payment when the Shares are issued in accordance with the director's payout election. This column does not include dividend equivalent units that have accrued through December 31, 2021 nor includes dividend equivalent rights paid on any such deferred Shares.
- (6) Pursuant to equity award agreements, unvested restricted stock units will be prorated upon vesting for any portion of the year that the director did not serve. Mr. Bisignano received a prorated number of restricted stock units upon vesting. The value represented above in column (c) is the prorated value of the number of Shares that vested on December 31, 2021, using the grant date fair market value of \$409.24.

- (7) Non-employee directors elected subsequent to 1997 do not receive any retirement benefits. As he was first elected to the board in 1993, Mr. Jones is the only director that will have retirement benefits under this former retirement policy, including: (A) at the director's election, either: (x) an annual retirement benefit for the life of the director in the amount of \$38,000, the annual retainer fee in effect for 1997; or (y) in lieu thereof, an actuarially equivalent joint and survivor annuity payment; and (B) an annual matching charitable contribution benefit of \$19,000 for the life of the director.
- (8) We pay for or reimburse our directors' travel, lodging and other reasonable out-of-pocket expenses in connection with attendance at board, committee and stockholder meetings. From time to time, we may transport one or more directors and members of their immediate family to and from such meetings or other Company business on Company aircraft. Directors may elect to participate in the medical and dental benefit programs offered to all our employees at a rate comparable to the rate paid by employees. In 2021, Mr. McDonald and Mmes. Katz and Peterson, elected to participate. Under the terms of our director compensation policy, each non-employee director who participates in medical and dental plans provided by the Company will, for two years following the date of completion of a change in control, be eligible to participate in medical and dental plans on substantially the same terms as immediately prior to the change in control, including the requirement to pay premiums at the same rates as our associates. We also reimburse directors for other reasonable expenses related to board service, such as director education, which amounts are not included in the table above. In addition, we pay certain local occupational taxes and life and accidental death insurance premiums per outside director, in each case as disclosed below, and provide a matching charitable gift program. The "All Other Compensation" amount above includes the following amounts earned in connection with service on our Board of Directors:

Director	Matching Charitable Gift (\$)	Occupational Tax (\$)	Life Insurance (\$)	Other (\$)	Total – All Other Compensation (\$)

- (1) Beneficial ownership of Shares, for purposes of this proxy statement, includes Shares as to which a person has or shares voting and/or investment power. Therefore, any restricted stock for which a person has voting power and all share equivalents in the Humana Retirement Savings Plan are included. These footnotes describe whenever an individual Shares voting and/or investment power over the Shares beneficially owned by them.

The number of Shares listed:

- (a) Includes certain Share equivalents held for the benefit of the individuals in the Humana Retirement Savings Plan as of December 31, 2021, over which the employee participant has voting power and investment power. As of December 31, 2021, our Named Executive Officers held 3,214 of such Share equivalents in the Humana Retirement Savings Plan, while all of our executive officers as a group (12 in number, including our NEOs) held 4,333 of such Share equivalents.
- (b) Does not include the initial stock retainer of 441 restricted stock units granted to Dr. Feinberg on his March 1, 2022 election date pursuant to our 2022 director compensation program. The restricted stock units represent approximately \$190,000 and were determined using the grant date fair market value of our common stock (\$430.62). The restricted stock units are expected to vest in full on March 1, 2023, unless service on the Board is less than one year in which case the restricted stock units will be forfeited in their entirety.

- (c) Includes unvested restricted stock unit awards of our directors and executive officers which are scheduled to vest within 60 days after January 15, 2022, as follows (performance-based restricted stock units are shown at the maximum level):

Marcy S. Klevorn	436
Jorge S. Mesquita	436
Bruce D. Broussard	36,530
Susan M. Diamond	1,688
Brian A. Kane	10,554

Executive Summary

2021 was another extraordinary and challenging year for our Company, members, associates, and stakeholders as the COVID-19 pandemic and the emergence of the Delta and Omicron variants continued to drive an uncertain environment for the healthcare system. The widespread adoption of vaccines allowed the healthcare system to remain open and our members resume routine interactions with their healthcare providers, while unanticipated surges in the pandemic led to increased hospitalizations, particularly among the unvaccinated. Nonetheless, our core operations remained strong as we maintained focus on ensuring our members and patients received the right care at the right time, providing the highest quality health care experience, advancing our strategy and delivering on our commitments to ESG.

To that end, we were pleased to be recognized by CMS for having 97% of our members in 2021 in 4-Star or higher contracts for 2022, and increasing the number of our contracts that received a 5-Star rating from 1 contract in 2021 to 4 contracts in 2022, the most in our history. This accomplishment further demonstrates our enterprise-wide focus on quality, clinical outcomes and best-in-class customer service, which has been recognized from notable organizations such as Forrester, J.D. Power and USAA. We also saw an improvement of 930 basis points in our Net Promoter Score this past year, reflecting our ongoing efforts to enhance the customer experience.

The year was also marked by significant progress in our strategy to advance our healthcare services platform. We accelerated the growth of our senior-focused, value-based primary care organization, the largest in the nation, through the opening of fifteen de novo senior-focused centers and the completion of nine strategic acquisitions, which brought an additional forty wholly-owned centers to our portfolio. We also completed the acquisition of Kindred at Home, the largest home health and hospice organization in the nation. Together with our acquisition in the first half of 2021 of One Homecare Solutions (onehome), we continue our efforts to transform home health to a value-based model and capture the meaningful opportunity for home health organizations to engage differently with patients and Medicare Advantage payers to more holistically address patient needs and improve health outcomes and reduce the total cost of care. We are excited about the continued progress of our strategy in both primary care and the home.

We also saw continued growth in our pharmacy business, with our PBM, the fourth largest in the country, processing 515 million 30-day equivalent scripts in 2021, an 8 percent increase year over year. In addition, our pharmacy dispensing business continues to deliver industry leading mail order penetration and we have successfully implemented tools to enhance our e-commerce experience, while expanding our mail order footprint to move us closer to the consumer.

We offer superior quality to our members, have a strong brand, and a long history of expertise in caring for people as they age. Additionally, our clinical focus and suite of Healthcare Services capabilities allows us to take a holistic approach to supporting members, ensuring they receive high quality, proactive and comprehensive care, which improves health outcomes. We will continue leveraging the strength of these core fundamentals to drive meaningful results for our Company and each of our stakeholders.

2021 Financial Performance Highlights

Our 2021 results demonstrate the continued strength of our core operations, and the commitment of the Board and executive management team to achieving strong operating results as we navigated through significant headwinds presented by the continued volatility and uncertainty of the COVID-19 pandemic, which ultimately had a more significant impact than we initially anticipated. Highlights of our fiscal year 2021 financial performance are illustrated below.

Compensation Program Highlights

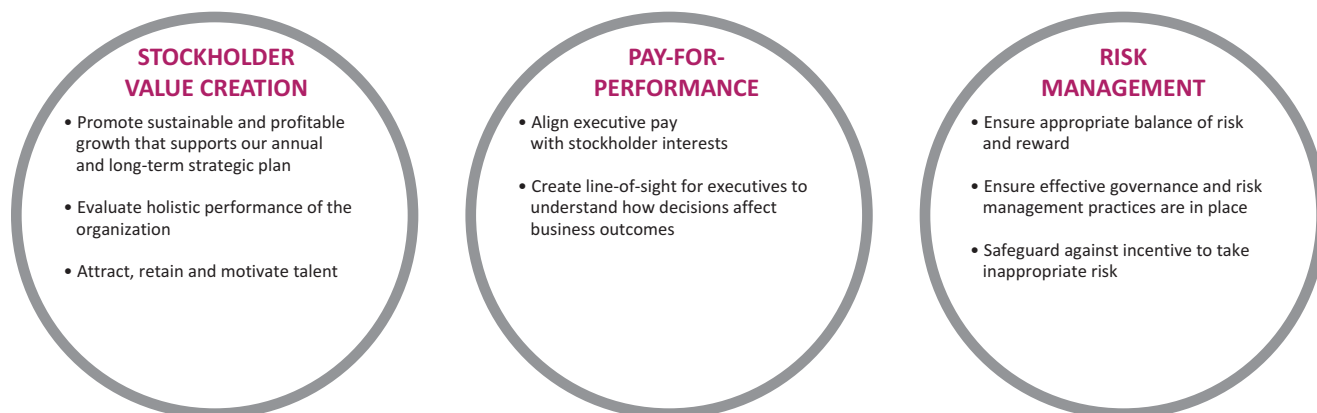

The Committee is dedicated to maintaining a robust, structured and balanced compensation program designed to motivate and reward the Company's executives to drive Humana's performance. Our maturing compensation program is a testament to the Committee's thoughtful consideration and progressive approach to evolve and align with market best practices and stockholders' interests. The chart below identifies certain elements of our compensation program.

PROGRAM SUMMARY	
✓	Incentive Plans. Our executive compensation program includes both short-term incentive (STI) and long-term incentive (LTI) plans. These plans are designed with the goal of balancing short-term decisions with creating long-term stockholder value; we aim to drive focus on achieving key short-term enablers that will lead to successful outcomes on long-term strategic initiatives.
✓	Equity Awards. We offer our executive officers a combination of incentive stock options (ISO), non-qualified stock options (NQ) and both time-based and performance-based restricted stock units (RSU) to align their interests with the creation of long-term stockholder value.
✓	Vesting Periods. We offer time-based equity awards that vest annually in one-third increments over a three-year period, and performance-based equity awards that vest on the third anniversary of the grant date based on the achieved performance results against preset performance targets.
✓	Performance Measures. For our executive officers, at least 55% of their LTI awards are performance-based. Performance is measured against the Company's three-year aggregated return on invested capital (ROIC), and strategic performance measures, with a total stockholder return modifier (rTSR) that measures our performance relative to a PSU Comparator Group over the same period.
✓	Stock Ownership Guidelines. We require our CEO, executive officers and senior vice presidents to maintain minimum stock ownership levels (7x, 3x and 1x of base salary, respectively). These requirements illustrate our belief in aligning the interests of our executives with the interests of our stockholders.
✓	Market-based Compensation. We perform regular market compensation analysis to maintain competitiveness of our executive compensation program.
✓	Peer Group. We leverage a robust peer group comprised of companies in the managed care industry, health care services and facilities industry, and financial and other insurance-related industries to benchmark and assess our compensation programs and practices.
✓	Change in Control and Executive Severance Policies. We have a Severance Policy and Change in Control Policy, applicable to the CEO and other executive officers with restrictive covenants that align with the applicable severance period for any benefits.
✓	Clawback Policy. We maintain a clawback policy that includes all incentive-based compensation.

Compensation Framework

Compensation Program Design Principles

Our executive compensation program is designed to attract, retain and motivate leaders to achieve strategic milestones and performance objectives that advance and grow our integrated care-delivery model. We design our executive compensation programs to challenge participants as well as reward them for superior performance for our Company and our stockholders. Our compensation program is predicated on three interconnected design principles:

Key Compensation Program Governance Components

Our robust and structured compensation program reflects the Committee's belief that strong corporate governance is imperative for prudent compensation decision-making. Below are key governance elements of our compensation programs. We also identify certain common pay practices that we do not follow because they do not align with the strict standard of governance that we apply to our compensation programs.

WHAT WE DO		WHAT WE DON'T DO	
✓	Design incentive plans with the majority of executive pay at risk	✗	No stock option repricing without stockholder approval
✓	Maintain a Clawback Policy that includes all incentive-based compensation	✗	No single trigger vesting of equity or cash severance payments upon change in control
✓	Include double-trigger provisions under our Change in Control Policy and equity agreements applicable to our executive officers	✗	No hedging or pledging of Humana securities by associates (including executive officers and directors)
✓	Require minimum stock ownership levels for senior leadership	✗	No tax gross-ups for our NEOs or other executive officers
✓	Maintain commitment to stockholder engagement	✗	No excessive perquisites for senior leaders; all perquisites require specific business rationale
✓	Conduct an annual compensation risk assessment	✗	No positive discretion for incentive-based awards
✓	Utilize an independent compensation consultant hired and overseen by the Committee	✗	No dividends or dividend equivalents on unearned PSUs or RSUs
		✗	No employment contracts with CEO, NEOs or other executive officers and senior leaders

Overview of Compensation Elements

The material components of our executive compensation programs are: (i) base salary; (ii) short-term cash incentives; and (iii) long-term equity incentives. We believe that having a combination of pay elements motivates and challenges our executives to achieve positive results for our Company and our stockholders. Each element of compensation is summarized as follows:

Fixed Compensation	<i>Base Salary</i>	<i>Cash</i>	<ul style="list-style-type: none"> Market competitive fixed compensation, reflecting executive's scope of responsibility Annually reviewed for market alignment, with adjustments as appropriate
	<i>Short-Term Incentives</i>	<i>Cash</i>	<ul style="list-style-type: none"> Cash-based incentive compensation to reward performance for achievement of short-term business objectives Measures aim to optimize the level of year-over-year profitability in the short-term while contributing to the long-term success of the organization
At Risk Compensation	<i>Long-Term Incentives</i>	<i>Humana Equity</i>	<ul style="list-style-type: none"> Promotes retention of our executive talent Motivates executives to optimize the long-term success of the organization Mitigates excessive risk taking by encouraging executives to act in the long-term interest of the organization

Inputs Into Compensation Decisions

For 2021, the Committee received input from a number of sources and reference points to guide its design of the Company's executive compensation programs and individual pay decisions. These various perspectives allow the Committee to have visibility into our peer companies' practices, investor viewpoints, changes in external market practices and each executive's individual performance, as part of its review of compensation. The Committee regularly reviews input and data received from its independent compensation consultant, our stockholders, external market practice surveys and individual performance assessments to make informed compensation decisions for our NEOs. In addition, the Committee regularly reviews tally sheet information that provides a comprehensive look at total compensation for each of our NEO's. The chart below further describes the primary sources contributing to the Committee's decision-making process.

Committee Inputs Into Compensation

Independent Compensation Consultant

For 2021, the independent compensation consultant for the Committee was Farient Advisors, LLC (Farient). A representative of Farient attended all of the regularly scheduled Committee meetings in 2021, including, when invited, executive sessions. In accordance with the Committee's Charter, the Committee has the sole authority to determine the compensation for, and to terminate the services of, the independent compensation consultant.

The Committee considered certain factors to determine whether Farient's service as a compensation consultant raised a conflict of interest, including, among other things:

- Whether the firm provided other services to the Company;
- The amount of fees received by the firm from the Company, as a percentage of such firm's total revenue;
- The firm's policies and procedures that are designed to prevent conflicts of interest;
 - Whether the firm's representatives providing services to the Committee have any business or personal relationship with a member of the Committee;
 - Whether the firm's representatives providing services to the Committee own Company stock; and
 - Whether the firm's representatives providing services to the Committee, or the firm itself, have any business or personal relationship with any of our executive officers.

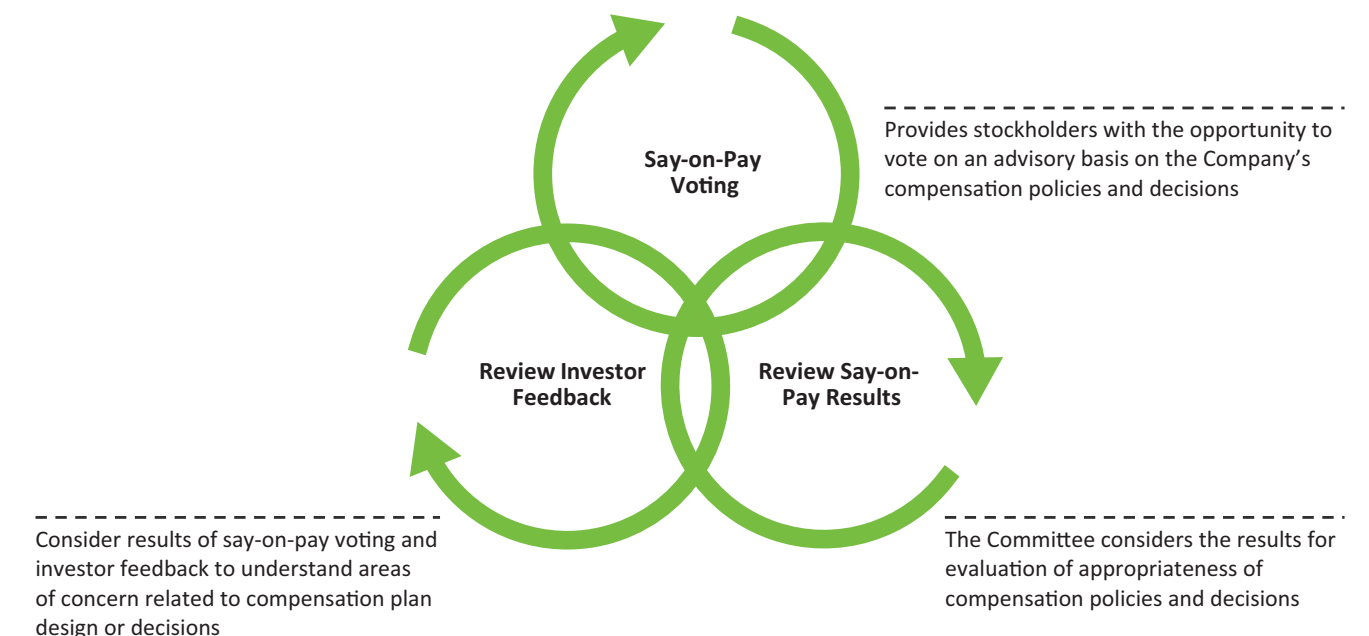

After considering all of the above factors, the Committee determined that the service provided to the Committee as an independent compensation consultant by Farient in 2021 did not raise any conflict of interest.

Stockholder Engagement and Say-on-Pay

The Board, together with its committees and management team, routinely reviews and responds to the feedback received from our stockholders – through formal stockholder engagements, stockholder voting results and routine communication during the year – creating a feedback loop of transparency into our compensation and governance practices. The continuous dialog supplements the Board's customary review of our governance and compensation programs, policies and/or practices as it considers areas for enhancement or improvement.

The Board views these engagements as an opportunity to gain insight and perspective on issues that matter most to our stockholders, and believes that the most constructive way to achieve meaningful dialogue is to connect with them directly. Accordingly, the Company offers attendance by Board and executive management team members throughout the engagement process. Our Board respects the views voiced by our stockholders and understands the importance of regular engagement as priority issues evolve over time. Feedback received during dialogue with stockholders has, in some cases, led to the reaffirmation of, or enhancements to, certain of our corporate governance, ESG, and executive compensation practices.

In addition to the above interactions, the Company routinely meets with stockholders, analysts and prospective investors throughout the year during industry conferences and other events. The Company's meeting schedule, presentations to investors and webcast replays are available via the Investor Relations section on our website. From www.humana.com, click on "Investor Relations" and then click on the "Calendar of Events" tab. The illustration below further details our stockholder engagement and feedback consideration methods.

Fall 2021 Outreach

As we've done in the past, in the fall of 2021 we solicited engagements with thirty of our largest stockholders, representing approximately 63% of our outstanding Shares as of June 30, 2021, and invited them to set the agenda based on their areas of interest. Our stockholder discussions included a variety of topics including: corporate governance, strategy, executive compensation, environmental and social issues and the Company's continued response to the ongoing COVID-19 pandemic.

Members of the Board and the executive management team made themselves available to attend all meetings upon request. In addition, the Chairman of the Board participated at the request of certain of our stockholders.

Eight engagements were held in response to our outreach, representing approximately 36% of our outstanding Shares as of June 30, 2021. As a result of these engagements, we received valuable feedback regarding the Company's current practices. The feedback was overwhelmingly positive regarding our programs and governance, as described in greater detail below. **We believe the lower level of engagement interest from our stockholders represents satisfaction with our current programs and practices and illustrates the effectiveness of our ongoing communications with stockholders throughout the year** on matters concerning the Company generally or the Board's oversight.

The Board believes that having ongoing communication with the Company's stockholders provides valuable insight to ensure the Board is acting in the best interests of Humana and its stockholders.

What We Heard During Our 2021 Stockholder Outreach

- Stockholders commended our Board's 2020-2021 refreshment and appreciated the current diversity and skills represented, while noting a continued focus on Board tenure. Given the Board's current composition mix, stockholders were also interested in the Company's director onboarding practices, boardroom dialogue and interactions with management.
- Stockholders were interested in our Board's process for management succession planning including the transition of the Company's CFO role in 2021.
- Stockholders inquired about our Board's policy and perspective on political giving in the current political climate.
- Stockholders appreciated the Company's enhanced disclosure of compensation metrics and indicated the importance of continued transparency in this area. Stockholders also expressed interest in emerging compensation trends, including the potential inclusion of future ESG metrics within compensation programs, and sought the Company's feedback on these trends.
- Stockholders commended the Company's enhanced ESG practices and reporting, including the reconstituted governance structure, as well as its expanded ESG disclosures using frameworks established by the Sustainability Accounting Standards Board (SASB) and the Task Force on Climate-Related Financial Disclosures (TCFD). Stockholders also suggested opportunities for continued advancement within the Company's ESG disclosures including: additional quantitative metrics, ambitious environmental targets, transparency in supplier oversight practices and statistics related to employee development and leadership.
- Stockholders remained interested in business impacts resulting from COVID-19 with particular interest in steps taken to mitigate effects to stakeholders (members, providers, associates, investors) as the pandemic continues, including workforce re-entry plans, the Company's COVID-19 vaccine policy, and Company culture in a continued remote work environment. The Company received positive feedback on maintaining world-class engagement scores in 2021.

How We Responded to What We Heard

Our Board is firmly committed to engagement with our stockholders and having candid dialogue. The Board welcomes feedback and believes these practices are in the best interest of our Company and our stockholders. Our responses to certain stockholder feedback received during the 2021 engagement period are outlined below.

- Reaffirmed commitment to ongoing reviews performed by the Board in consideration of composition, tenure and refreshment.
- Confirmed the Board's oversight of Humana's Political Action Committee (PAC) and the PAC's commitment to supporting persons and/or organizations who share our belief that coordinated health care coverage brings quality, choice, access and affordability to consumers.
- Reaffirmed our commitment to determine achievement under our compensation plans based on established compensation metrics and the terms of the plans and continuing to consider emerging trends in the design of our compensation programs.
- Developed an integrated ESG report (Humana's Impact Report) aligned to the Company's strategy that contains quantitative and qualitative metrics and applies reporting standards established by prominent ESG frameworks. The Company is also committed to considering additional opportunities for enhancement to its ESG program, including establishing ambitious environmental targets and evaluating new areas of disclosure.
- Maintained our commitment to support the health and well-being of our members, associates and the communities we serve as the COVID-19 pandemic persists.

Say-on-Pay Support

Our 2021 say-on-pay proposal maintained its typically high level of approval with 95% of our stockholders voting in favor of the Company's compensation strategy. We believe that the result of our 2021 say-on-pay proposal indicates that stockholders are generally supportive of our executive compensation program, and therefore the Committee made no material changes to the executive compensation program as a result of this vote.

Stockholder Voting Trend

Peer Group

Our peer group is used as a reference point in making compensation decisions, such as developing base salary ranges, developing short-term and long-term incentive award ranges, determining competitiveness of the total compensation package for our NEO's and comparing our performance in order to validate if our compensation programs are informed by market practices.

The Committee uses the framework below, in consultation with its independent compensation consultant, to filter and select a broad group of potential peers. This framework yields multiple perspectives that enrich our understanding of competitive executive pay practices while also ensuring that our peer group is comprised of companies with whom we may compete for talent and whose revenues, market capitalization, and business focus are similar to our own.

For 2021 compensation decisions, based on its review along with advice from its independent compensation consultant, the Committee approved the following peer group (the "Peer Group"):

Managed Care Peers	Healthcare Services & Facilities	Financial & Insurance
<input type="checkbox"/> Anthem, Inc. <input type="checkbox"/> Centene Corporation <input type="checkbox"/> Cigna Corporation <input type="checkbox"/> CVS Health Corp <input type="checkbox"/> UnitedHealth Group Inc.	<input type="checkbox"/> AmerisourceBergen Corporation <input type="checkbox"/> Cardinal Health, Inc. <input type="checkbox"/> DaVita Inc. <input type="checkbox"/> HCA Healthcare, Inc. <input type="checkbox"/> Laboratory Corporation of America Holdings, Inc. <input type="checkbox"/> McKesson Corp <input type="checkbox"/> Walgreens Boots Alliance, Inc.	<input type="checkbox"/> Aflac, Inc. <input type="checkbox"/> Allstate Corporation <input type="checkbox"/> MetLife, Inc. <input type="checkbox"/> Progressive Corporation <input type="checkbox"/> Prudential Financial, Inc. <input type="checkbox"/> The Travelers Companies, Inc.

Plan Design and Award Decisions

Base Salary

On an annual basis, the Committee, in consultation with its independent compensation consultant, reviews the market data and current base salaries for our executives, considering adjustments as deemed appropriate. Salary increases, if any, must receive advance approval from the Committee. While the Committee approved no increases in 2020, the 2021 evaluation revealed that base salary increases were necessary for our NEOs in order to maintain competitive market pay levels. In addition to market data, the 2021 determinations took into account demonstration of enterprise value along with certain expansions of responsibilities. The table below represents base salaries for our CEO and other NEOs as of March 1, 2021, compared to March 1, 2020.

Named Executive Officer	2021 Base Salary	2020 Base Salary
Bruce D. Broussard	\$1,349,500	\$1,349,465
Susan M. Diamond ⁽¹⁾	\$ 750,000	\$ 525,000
Brian A. Kane	\$ 765,000	\$ 750,000
T. Alan Wheatley	\$ 665,000	\$ 625,000
Timothy S. Huval	\$ 663,000	\$ 650,000
William K. Fleming	\$ 560,000	\$ 550,000

(1) Effective on July 4, 2021 Ms. Diamond received a base salary increase from \$560,000 to \$750,000 in connection with her position change to Chief Financial Officer.

Short-Term Incentives

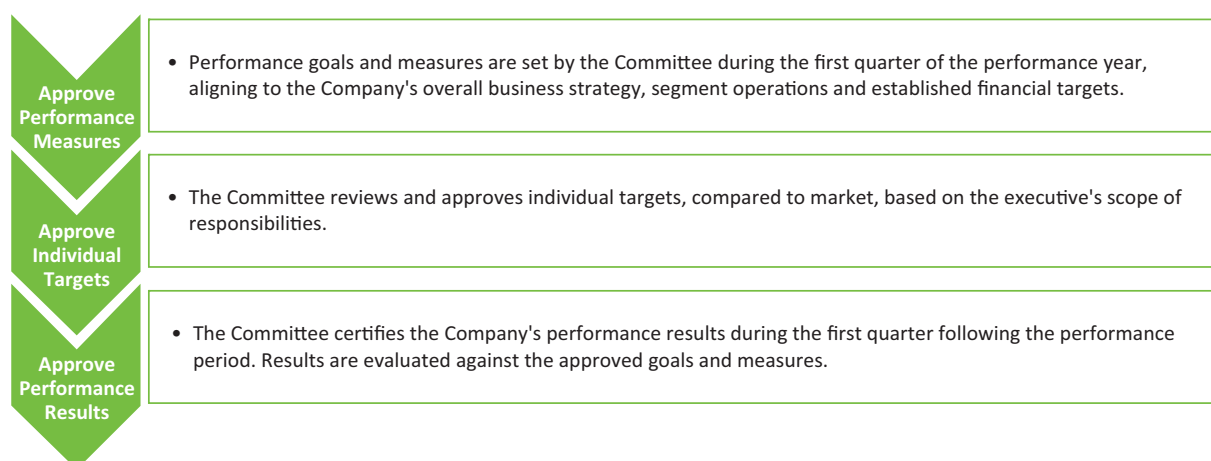

Our STI is administered through the Associate Incentive Plan (AIP), a discretionary, annual cash-based incentive plan. The goal of our plan is to recognize and reward all of our full-time and part-time associates, including our executive officers, for their contributions to the Company's overall performance, while also uniting associates around a common purpose for the year.

Associate Incentive Plan

The AIP plan year is effective January 1 through December 31 of each fiscal year. Associates who participate in other Company incentive plans, such as Sales Incentive/Commission Plans and Targeted Incentive Plans, are not dually eligible to participate in the AIP. Associates may not participate in more than one incentive plan. For our executive officers, the AIP is administered through the Executive Incentive Compensation Plan, as filed with the SEC on annual and quarterly reports on Form 10-K and Form 10-Q, respectively, and can be accessed on our website. From the www.humana.com website, click on "Investor Relations," then click on "SEC Filings and Financial Reports," and then click on "SEC Filings."

Each associate's AIP payout is calculated based on Eligible Earnings during the AIP Performance Period, each as defined under the AIP Plan Document. Eligible Earnings under AIP excludes salary or wages classified as commissions, incentive pay, bonuses, rewards, long-term disability, overtime and shift differential compensation. Refer to section entitled "2021 AIP Performance Results" for discussion of AIP payout of our Named Executive Officers.

On an annual basis the Committee, in consultation with its independent compensation consultant, reviews and approves the AIP as outlined below:

The Committee selected the following performance measures for the 2021 AIP, aligning our executives to the key financial and operational objectives of our overall strategy:

Adjusted Earnings Per Share (EPS)	<i>50% Weighting</i>	<ul style="list-style-type: none"> Bottom-line measure of our organization's profitability and is a common measure tracked by our stockholders. The 2021 target represents a 16.2% year-over-year target increase. (Adjusted EPS)
Strategic Measures	<i>15% Weighting</i>	<ul style="list-style-type: none"> Strategic initiatives that will improve relationships with our providers, improve member health and position the organization for long-term sustainable growth. Continued focus on transformation efforts specific to key short-term enablers that support long-term strategic outcomes: Integration of enterprise platforms, Customer Centric Operating Model and value-based health ecosystem Refer to "A Closer Look at AIP Strategic Measures" below for additional details.
Net Promotor Score (NPSt)	<i>14% Weighting</i>	<ul style="list-style-type: none"> Aligned to our integrated care delivery strategy and focuses on being a consumer-centric organization that strives for continuous member experience improvement. The measurement process is reviewed and approved by the Company's Internal Audit Consulting Group and results are independently validated and certified by a third-party. Data for this measurement is collected from member surveys, using automated interactive voice response (IVR) technology after an interaction with our call center support team. The 2021 NPSt target represents a 6.8% increase above 2020 results.
Membership Growth	<i>14% Weighting</i>	<ul style="list-style-type: none"> Measures Medicare Advantage (MA) net membership growth during the year. The target is set prior to the beginning of the Annual Enrollment Period (AEP).
Member Retention	<i>7% Weighting</i>	<ul style="list-style-type: none"> Sustainable membership growth and improving member health outcomes is dependent on our ability to retain members year-over-year. Measures MA and MAPD plan membership terminations as of December 31 with metric expressed as a voluntary termination rate (VTR).

In addition to the above performance measures, the Committee also established a funding gate for our management team, whereby no AIP would be paid unless the Company achieves threshold Adjusted EPS performance. Further, the terms of the plan provide that the performance measures determined by the Committee shall automatically adjust to reflect the impact of certain non-recurring events, including the impacts of merger, acquisition and disposition activity, changes in accounting standards, litigation or regulatory investigations outside of the ordinary course of business, restructuring activity outside of the ordinary course of business, business exit or disposal activities, and any extraordinary, natural disaster, unusual or infrequent event. However, the Committee retains the ability to exercise negative (but not positive) judgment with respect to the payout results regardless of the impact of any automatic adjustments.

Under our AIP, individual performance and contributions are taken into consideration when determining each associate's final payout. For the 2021 AIP period, the Committee determined that contributions to the advancement of the Company's inclusion and diversity efforts would be included in the assessment of the individual performance of our executive officers and members of senior management levels, with the potential for an individual's payout to be decreased (but not increased) in connection with the individual's contributions to these efforts.

A Closer Look at AIP Strategic Measures

The Company has a set of strategic initiatives that, if achieved, will improve member health, improve relationships with our providers and position us for long-term sustainable growth. The Committee believes that having strategic measures embedded within the AIP targets is critical to help drive organizational focus and prioritization in advancing our long-term strategy. The 2021 strategic measures directly align to our integrated care approach. We saw encouraging progress in 2021 related to each strategic measure which has a positive, direct impact on our members.

Integration of Enterprise Platforms

Strategic Purpose

Our goal is to scale enterprise platforms in order to unlock value and enable data driven decision making that creates a competitive advantage and drives superior health outcomes.

The availability of new technologies to gather and share data is changing when, where and how we can deliver care. Digital technology plays a critical role in putting members and physicians at the center of a simplified, personalized healthcare experience. Further expanding our digital platform enables us to develop ground-breaking products and services that enhance the quality of care our members receive.

Strategic Progress

- We have made advancements in our strategy to achieve integration of technology and analytics across the enterprise. Our efforts in this area have resulted in improved customer journey engagement scores and have enriched services provided by Humana Care Support, our next generation of customized, integrated and coordinated care management services.

Customer Centric Operating Model

Strategic Purpose

Oriented around the customer journey the Customer Centric Operating Model (CCOM) works in integrated teams in order to prove the value of the customer back model and lay the groundwork to deploy at scale. This also changes the way work is done to be able to solve member problems with faster to market solutions.

To meet the evolving expectations of consumers, it's important that we create meaningful healthcare experiences that address the needs and preferences of our members, what we call "customer back." This requires us to continue developing products and services that bring together a holistic view of a members' physical, pharmaceutical, social, and behavioral needs. By creating an experience that coordinates touch points between internal and external systems, we will build an integrated, hyper-connected ecosystem that improves the customer experience and health outcomes.

Strategic Progress

- Our CCOM journey teams have implemented measures that promote cultural change, drive impact and improve target delivery. We've honed in on specific areas that generate quantifiable change and deliver positive progress within customer pathways. Customer experience remains a primary indicator for the journey teams as they continue to innovate within the CCOM.

Value-based Health Ecosystem

Strategic Purpose

We aim to grow utilization of our proprietary Home and Pharmacy assets in order to improve health outcomes and advance Human Care.

The vision of Home Solutions is to create an improved consumer and provider experience and drive better care outcomes by transforming the home into the center of care delivery. We can drive innovations in the home health clinical model and reduce adverse events for our members. By improving the effectiveness & reach of our home care assets, we can more fully and consistently capture our members' chronic conditions and close care gaps. And through the launch of our transformative asset-light primary care offering, we can deliver longitudinal, personalized, and convenient value-based primary care in a rapidly scalable way.

Strategic Progress

- We are bringing value-based care in the home by leveraging our home care assets and strategic partnerships, such as Heal. We've remained focused on supporting efforts toward membership growth in the Heal-Humana sector.
- We are growing membership in our award winning mail-order pharmacy and have invested in measures to yield a continuous increase in consumer satisfaction via NPSt.

2021 AIP Performance Results

In determining the funding rate for our NEOs under the 2021 AIP, the Committee reviewed the overall financial and operating results of the Company, evaluating them against the AIP performance ranges developed by the Committee in February 2021, and the challenges faced by the Company from the ongoing pandemic, approving performance under the Executive Incentive Compensation Plan as follows:

Measure	Weighting	Minimum (50%)	Target (100%)	Maximum (200%)	Results	Performance Rate	Performance Weighting Under Plan
Adjusted EPS	50%	\$19.89	\$21.50	\$23.11	\$22.09	136.65%	68.3%

(1) Target NPSt represents the Company's NPSt goal for the year. The spread between minimum/target and target/maximum is +/- 7.5% of the target goal.

Under the terms of the Executive Incentive Compensation Plan, the Company's Adjusted EPS performance was subject to an automatic adjustment due to the impacts of acquisition activity and the extraordinary, unusual and infrequent impacts experienced by the Company as a result of the COVID-19 pandemic. Following these automatic adjustments, the Company's Adjusted EPS performance as defined under the Executive Incentive Compensation Plan was \$22.09, resulting in a performance rate for the Adjusted EPS performance factor of 136.65%.

In evaluating these results, the Committee considered the unpredictable disruption of the COVID-19 pandemic on the Company's financial results and operating performance, along with the volatility and disruption on the healthcare system as a whole. The Committee also considered the leadership of the management team in maintaining the strong core operational performance of the Company and making significant advancements on its strategic priorities, while seeking to mitigate the impact of the COVID-19 pandemic for the Company and its members, associates and stakeholders. Finally, the Committee also considered the Company's Adjusted EPS results without the automatic adjustments under the Executive Incentive Compensation Plan.

Following this review the management team recommended, and the Committee elected, to exercise negative discretion to reduce the AIP funding rate for the management team to 90% of the targeted total payout, reflecting the performance under the Executive Incentive Compensation Plan without any automatic adjustments as called for under the terms of the Plan.

Named Executive Officer	2021 Eligible Earnings	2021 Target Opportunity	Funding Rate	Actual Payout
Bruce D. Broussard	\$1,349,465	175%	90%	\$2,125,407
Susan M. Diamond	\$ 640,962	100%		\$576,866

William K. Fleming	\$ 558,077	100%		\$502,269

Long-Term Incentives

Long-Term Incentives provide a vital link between the long-term results achieved for our stockholders and the financial rewards provided to our NEOs. The Committee, in consultation with its independent compensation consultant, annually determines the aggregate amounts and terms of long-term incentive compensation awards for our executive officers using (i) compensation programs and competitive pay practices of peer companies and (ii) the outstanding equity information for each executive officer using tally sheets to examine the value of prior compensation decisions.

The Committee approved the following mix of long-term incentive awards granted in 2021 to our NEOs, reaffirming its commitment to performance-based compensation through an increase in weighting since 2020:

Performance-Based Stock Units	Restricted Stock Units	Stock Options
55%	22.5%	22.5%
<ul style="list-style-type: none"> Reinforces our pay-for-performance culture Focuses on three-year cumulative goals for adjusted return on invested capital (ROIC) and the advancement of key strategic measures Measures the returns generated by investment in the Company and represents management's ability to build long-term value for the organization Highly correlated with value creation for our stockholders Includes a rTSR modifier that will adjust final award payouts up or down based on how the Company performs relative to the approved 2021 PSU Comparator Group (+/- 20%) 	<ul style="list-style-type: none"> Promotes retention of our executive talent Aligns executive officers' interests with that of our stockholders Allows executive officers to build stock ownership positions Provides value regardless of stock price volatility Offers long-term financial opportunities to our executives beyond salary 	<ul style="list-style-type: none"> Aligns the interest of executive officers with stockholders by placing emphasis on long-term value creation through promoting growth in our stock price Promotes connectedness with the Company and its long-term strategy, reinforcing the financial success of the organization Offers long-term financial opportunities to our executives beyond salary

The Committee believes that a mix of long-term incentives, combined with performance measures and a rTSR modifier:

- Aligns executives with the interests of our stockholders;
- Allows executives to focus on measures they have the ability to influence while also satisfying stockholder expectations of using a relative measure;
- Ensures that our long-term incentive compensation program is not overly dependent upon rTSR as an independent measure; and
- Adjusts to general economic conditions that would impact all companies in our Peer Group.

The Committee approved the following 2021 stock-based compensation for the CEO and other NEOs:

Named Executive Officer	PSUs 55% ⁽¹⁾	RSUs 22.5%	Options 22.5%	Total 2021 LTI Award

Performance of our 2019-2021 Performance-Based Restricted Stock Units

In 2019, the Committee granted performance-based stock unit awards to our then-serving NEOs, with performance criteria for these awards based on the Company's average adjusted return on invested capital (Adjusted ROIC)⁽¹⁾ against an established set of targets over the three-year period beginning January 1, 2019 and ending December 31, 2021, referred to herein as our "2019-2021 PSU Awards." The 2019-2021 PSU Awards also included a relative total stockholder return modifier (rTSR) that could adjust final payout results up or down based on the Company's TSR ranking against an approved comparator group.

The following discloses the three-year cumulative goals included in the 2019-2021 PSU Awards, which provide for incremental payout between steps:

2019-2021 PSU Awards			
	Minimum (50%)	Target (100%)	Maximum (200%)
Financial Measure:			
Adjusted ROIC	13.1%	14.45% - 14.75%	16.1%
✓ 3-Year Average ROIC target of 14.6%, with a target corridor of +/- 0.15%			
✓ Spread between minimum/target and target/maximum of +/- 10%			
✓ Incremental payout using linear interpolation if performance is within the ranges noted above			
rTSR Modifier	+ /-20%		
rTSR Modifier (2019 Peer Group as Comparator Group)			
Ranked on a percentile basis against peers; +/- 20% is determined after ROIC performance is measured, and is applied as follows (with maximum payout capped at 200% of target opportunity and incremental modification using linear interpolation if performance is within the ranges noted below):			
	< 25th Percentile: - 20%		
	45th – 55th Percentile: No Modifier Applied		
	> 75th Percentile: + 20%		

- (1) For purposes of the 2019-2021 PSU Awards, we define Adjusted ROIC, which is a non-GAAP performance measure, as adjusted net operating profit after tax (Adjusted NOPAT) divided by average invested capital (AIC). Adjusted NOPAT, which is a non-GAAP financial measure, is defined as GAAP net operating income as adjusted for non-GAAP items consistent with those reported in our public earnings release plus tax effected interest expense. AIC is defined as average shareholder's equity plus average debt minus parent company cash (excluding \$500 million for required reserves). The terms of the 2019-2021 PSU Awards further provide that for purposes of determining results under the awards for any individual fiscal year within the performance period, the applicable elements of Adjusted ROIC shall automatically adjust to reflect the impact of certain non-recurring events, including the impacts of merger, acquisition and disposition activity, changes in accounting standards, litigation or regulatory investigations outside of the ordinary course of business, restructuring activity outside of the ordinary course of business, business exit or disposal activities, and any extraordinary, natural disaster, unusual or infrequent event. However, the Committee retains the ability to exercise negative (but not positive) judgment with respect to any award, regardless of the impact of any automatic adjustments.

When determining the vesting value of the 2019-2021 PSU Awards, the Committee reviewed final Company results showing a three-year cumulative Adjusted ROIC of 15.6% as determined under the terms of the 2019-2021 PSU Awards, including certain automatic adjustments due to the impacts of acquisition activity and the extraordinary, unusual and infrequent impacts experienced by the Company as a result of the COVID-19 pandemic, and a rTSR ranking in the 47.8th percentile of the comparator group. As part of this review, the Committee also noted that Adjusted ROIC and rTSR performance are a by-product of both the financial and operational performance of the Company over the three-year period. As such, the Committee took into account strong earnings, revenue and membership growth, TSR, and substantial progress made in executing on its long-term strategy over the performance period. This strategy includes moving from an insurance company with elements of health to a health company with elements of insurance. The Company took further steps to advance the quality of care delivered to the Company's members, and significantly advanced its healthcare services platform through the expansion of its senior-focused, value-based primary care organization and home health and hospice organization.

During its February 2022 meeting, based on the review described above, the Committee approved an award payout at 162.9% of target amounts, as determined under the terms of the 2019-2021 PSU Awards, with no discretionary exceptions or adjustments, as shown below.

	Final Result	Funding Rate	Modifier	Final Payout Results
Adjusted ROIC	15.6%	162.9%		
rTSR Modifier	47.8 th Percentile		0.00%	
Final Payout				162.9%

The Committee determined the above results were appropriate given the substantial progress made on long-term initiatives and the strong financial performance achieved during the 3-year performance period, particularly within the challenges presented during 2021.

Other Benefits and Perquisites

We operate in a highly competitive, complex and consolidating industry and offer certain benefits that we believe are critical to attract and retain talent. In general, our NEO's are eligible for the same benefits as our associate population. We offer a limited number of perquisites to attract and retain our executives but we do not provide any tax reimbursements or "gross-ups" for these benefits.

Health and Retirement Benefits

- Our executive officers participate in the broad-based employee health and retirement programs under the same terms and conditions as all other eligible associates.
- Such benefits include: medical, dental, vision, disability, wellness, life and accidental death and dismemberment (AD&D) insurance, as well as 401(k) retirement plan, supplemental 401(k) plan and the option to participate in our Nonqualified Deferred Compensation Plan.

Perquisites

- We provide limited perquisites to our executive officers, which are aligned with market practices and are reviewed on a regular basis.
- Perquisites may include limited personal use of the Company aircraft, personal security, personal executive support services, an annual physical, a matching charitable gift program, a supplemental life insurance benefit, financial planning assistance, and, if applicable, relocation assistance.

Executive Severance and Change in Control

- The Severance Policy provides for benefits in the event employment is terminated without cause, for a defined severance period during which certain restrictive covenants would apply (e.g., non-compete, non-solicit and non-disparagement covenants):
 - CEO: 24 months base salary and target bonus, with two year restrictive covenants;
 - Other NEOs: 18 months base salary only, with 18 month restrictive covenants.
- The Change in Control Policy (CIC Policy) provides for benefits in the event that employment is terminated under certain circumstances in connection with a Change in Control transaction, with restrictive covenants binding the executive during the applicable severance period:
 - CEO: lump sum payment of 30 months base salary and target bonus, with 30 month restrictive covenants;
 - Other NEOs: lump sum payment of 24 months base salary and target bonus, with 24 month restrictive covenants.

Compensation Risk Management, Policies and Practices

We review our compensation programs to ensure appropriate governance and risk management practices. We believe that our policies and practices align with evolving best practices, while ensuring appropriate balance of risk and reward. Certain key risk management policies that pertain to executive compensation are as follows:

Clawback Policy

- Our Board has adopted a Compensation Recoupment Policy that covers each of our executive officers and applies to incentive compensation, including any cash incentive or equity award paid or awarded during the period in which he or she is designated as an executive officer. For all executive officers, the Company may recoup such incentive compensation in the event of: (a) a material restatement of the Company's financial statements; or (b) certain specified conduct that in the discretion of the Committee, is likely to cause or has caused material financial, operational or reputational harm to the Company.

Hedging and Pledging Policy

- Our Board has adopted a policy prohibiting all employees, including executive officers and directors, from engaging in short-term, speculative transactions in Company securities and therefore **prohibits any hedging or pledging of** Company securities, including puts, calls or other derivative securities.

Stock Ownership Guidelines

- Our stock ownership guidelines link a significant amount of our executives' current and potential net worth to the Company's success in alignment with the interests of our stockholders.
- Ownership guidelines are expressed as a multiple of base salary and must be held until the relevant multiple is reached and maintained thereafter, as follows:
 - Chief Executive Officer: 7x base salary
 - CEO Direct Reports (including all NEOs): 3x base salary
 - Senior Vice Presidents: 1x base salary

Insider Trading Policy

- Our Board has adopted a policy prohibiting all employees, including executive officers and directors, from "tipping" or trading on inside information.
- The policy expressly prohibits purchasing or selling any securities of the Company (including, without limitation, a stock plan transaction such as an option exercise, transfer in the Company's Retirement and Savings Plan, gift, loan, pledge or hedge, contribution to a trust, or any other sale or transfer, regardless of how the securities are held), while aware of material, non-public information concerning the Company.

Organization & Compensation Committee Report

The Organization & Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis for the year ended December 31, 2021 with management. In reliance on these reviews and discussions, the Organization & Compensation Committee recommended to the Company's Board of Directors, and the Board of Directors has approved, the inclusion of this Compensation Discussion and Analysis in this proxy statement.

All members of the Organization & Compensation Committee of the Company whose names follow submit the foregoing report:

* *We have included an Adjusted EPS financial measure (not in accordance with Generally Accepted Accounting Principles (GAAP)) in our proxy statement as we believe that this measure, when presented in conjunction with the comparable GAAP measure, is useful to both management and its investors in analyzing our ongoing business and operating performance. Consequently, we use this non-GAAP financial measure as an indicator of business performance, as well as for operational planning and decision making purposes. Non-GAAP financial measures should be considered in addition to, but not as a substitute for, or superior to, financial measures prepared in accordance with GAAP. The following excluded items are not recurring parts of our operating plan: (i) amortization expense for identifiable intangibles of approximately \$65 million pretax; (ii) gain associated with Kindred at Home equity method investment of approximately \$1,129 million which was recorded upon closing of the Kindred at Home transaction in August 2021; (iii) put/call valuation adjustments of approximately \$597 million associated with the Company's non-consolidating minority interest investments including the impact of the termination of the put/call agreement related to Kindred at Home as a result of the transaction announced on April 27, 2021; (iv) transaction and integration costs associated with Kindred at Home acquisition of approximately \$128 million; and (v) change in fair market value of publicly-traded equity securities of \$341 million. To arrive at GAAP EPS of \$22.67: (i) amortization associated with identifiable intangibles of \$0.39 per diluted common share; (ii) gain associated with Kindred at Home equity method investment of approximately \$8.73 per diluted common share which was recorded upon closing of the Kindred at Home transaction in August 2021; (iii) put/call valuation adjustments associated with the Company's non-consolidating minority interest investments including the impact of the termination of the put/call agreement related to Kindred at Home as a result of the transaction announced on April 27, 2021 of \$3.56 per diluted common share; (iv) transaction and integration costs associated with Kindred at Home acquisition of approximately \$0.72 per diluted common share; and (v) change in fair market value of publicly-traded equity securities of \$2.03 per diluted common share. We encourage each stockholder to read the full financial analysis for year ended December 31, 2021 contained in our Annual Report on Form 10-K, filed with the SEC on February 17, 2022.*

- (1) The amounts listed under the column “Stock Awards” in the Summary Compensation Table above disclose the aggregate grant date fair value of equity awards granted in fiscal years 2019, 2020 and 2021, calculated in accordance with FASB ASC Topic 718, “*Compensation — Stock Compensation*.” Note 14 to the Notes to Consolidated Financial Statements of our Annual Report on Form 10-K for the year ended December 31, 2021, describes the assumptions used to determine the grant date fair value for overall Company equity awards. Performance-based units are disclosed at target value — for a presentation of the ranges of potential values of these performance-based awards at vesting dependent upon the achievement of performance measures, please refer to the table entitled, “Grants of Plan-Based Awards” in this proxy statement.

The aggregate grant date fair value of each 2021 performance-based restricted stock unit award assuming that the highest level of performance conditions will be achieved is as follows:

Named Executive Officer	Grant Date Fair Value
Bruce D. Broussard	\$13,612,192
Susan M. Diamond	\$ 2,023,902
Brian A. Kane	\$ 4,235,356

William K. Fleming	77,608	21,750	0	30,000	18,970	6,729

- (a) This amount is also listed in the Nonqualified Deferred Compensation table.
- (b) The costs of personal use of Company aircraft was based on the aggregate incremental costs to the Company, including the lost tax deduction to the Company and personal deadhead hours.
- (c) Includes basic life insurance premiums, wellness incentives and physicals. "Other" compensation for Mr. Broussard also includes imputed income in the amount of \$6,967 for personal executive support services.

CEO Pay Ratio

2021 CEO Pay Ratio
255:1

As detailed further within the "Human Capital Management" section of this proxy statement, our associates' total compensation may include base pay, incentive pay, overtime and other supplemental pay. We regularly review associate compensation and conduct benchmarking of our pay to the external market where we compete for talent, as well as, internal reviews of associate pay compared to those doing similar work in similar capacities across the Company— all to ensure we are competitive and aligned with industry standards. With respect to our CEO and other Named Executive Officers, as discussed further within the "Compensation Discussion & Analysis" section of this proxy statement, the Organization & Compensation Committee believes that current levels of compensation are appropriate based on the Committee's multifaceted review.

Our 2021 CEO pay ratio was calculated in compliance with the requirements set forth in Item 402(u) of Regulation S-K. Outlined below is the process that was applied for identifying our median associate for our comparative compensation analysis of the median associate to our CEO.

- We identified the median associate using 51,731 global full-time, part-time, temporary and seasonal associates employed as of December 31, 2021, which excludes approximately 43,779 associates who joined us during 2021 as a result of acquisitions and business combinations;
- We consistently applied 2021 W-2 earnings as compensation measure for the median associate;
- During 2021, the median associate participated in one of our Targeted Incentive Plans (TIP), cash compensation plans that target specific behaviors and outcomes within lines of business and teams, instead of the Associate Incentive Plan. Payments under the TIP are made quarterly based on performance during the previous fiscal quarter. Payments under the TIP for the first three fiscal quarters of 2021 were included within 2021 W-2 earnings. Payment under the TIP for the fourth quarter of 2021 was not included within 2021 W-2 earnings, as this compensation, although earned for the fourth quarter of 2021, is payable during the first quarter of 2022. Therefore, to determine the median associate compensation, we applied the fourth quarter 2021 TIP payment to the median associate's total 2021 W-2 compensation, and excluded the fourth quarter 2020 TIP amount;

- We then calculated the median associate's compensation in the same manner as the Named Executive Officers in the Summary Compensation Table;
- Applying this methodology, our median associate's total compensation was \$64,797, which includes a base salary of \$59,378 and 2021 TIP payment of \$5,419; and
- Our Chief Executive Officer's total compensation was **\$16,528,036**.

Grants of Plan-Based Awards

The following table provides information about equity awards granted in 2021 under our Amended and Restated Stock Incentive Plan, which we refer to as the Stock Plan, and the range of potential payments earned in 2021 under our short-term incentive compensation plan. (1) Amounts calculated based upon annualized base salary, rather than actual amounts paid, for 2021. The actual payment of incentive compensation is shown in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table under "Executive Compensation" in this proxy statement. In 2021, for our CEO, the threshold, target and maximum opportunity, as a percentage of base salary, were 88%, 175% and 350%, respectively, and for our other Named Executive Officers, were 50%, 100% and 200%.

- (2) In 2021, our Named Executive Officers were awarded 55% of their equity awards in the form of performance-based restricted stock units, with performance criteria based upon three-year cumulative goals with a financial measure of adjusted return on invested capital (ROIC) and modifier based on three-year relative total stockholder return (rTSR) of the Company relative to the TSR of the Company's peer group over the same period. The performance-based units generally vest three years from the date of grant to the extent that the underlying performance targets have been met and the Named Executive Officer continues to be employed through the applicable vesting date.
- (3) In 2021, our Named Executive Officers were awarded 22.5% of their equity grants in the form of time-based restricted stock units. The restricted stock units generally vest in equal annual one-third installments beginning in the year of grant, to the extent the Named Executive Officer continues to be employed through the applicable vesting date.
- (4) In 2021, our Named Executive Officers were awarded 22.5% of their equity grants in the form of stock options. Stock options awarded to our Named Executive Officers are incentive stock options to the extent allowed by regulation and the balance are treated as nonqualified stock options. Stock options granted to our Named Executive Officers vest and become exercisable in equal annual one-third installments from the date of grant. The above options expire seven years from the date of grant. The exercise price may be paid in cash or, at the discretion of the Committee, in Shares of our common stock valued at the fair market value on the date of exercise or any combination thereof. Under our Stock Plan, the Board may not reduce the exercise price for options or stock appreciation rights by re-pricing or replacing any option award.
- (5) Options under our Stock Plan cannot be granted at less than the Fair Market Value, defined in our Stock Plan as the average of the highest and lowest reported sales prices of our common stock in transactions reported on the composite tape by the NYSE on the grant date. Our Stock Plan was approved by our Board of Directors and by our stockholders.
- (6) Discloses the aggregate grant date fair value of restricted stock unit awards and stock option awards granted in the fiscal year, calculated in accordance with FASB ASC Topic 718, "Compensation — Stock Compensation." Performance-based restricted stock unit awards are disclosed at target value, based upon the probable outcome of the performance conditions.

Option Exercises and Stock Vested

The following table provides information on the stock options exercised by, and Shares acquired upon the vesting of restricted stock units held by, our Named Executive Officers in 2021. Options exercised or vested restricted stock units may or may not have been sold by a particular Named Executive Officer, and the inclusion in this table of such information should not be understood to imply the actual receipt of monies.

- (1) The Value Realized on Exercise is based on the difference between the Fair Market Value of our common stock as reported by the NYSE composite tape and the exercise price of the options on the date of exercise.
- (2) The Value Realized on Vesting is based on the Fair Market Value of our common stock as reported on the composite tape by the NYSE on the date of vesting.

Nonqualified Deferred Compensation

The following table and narrative that follows provides information on contributions and earnings for the Humana Retirement Equalization Plan and the Humana Deferred Compensation Plan for the Named Executive Officers in 2021.

William K. Fleming	—	77,608	34,136	—	1,265,477

- (1) The amounts listed above under Registrant Contributions in Last Fiscal Year (column c) are also included under the All Other Compensation column of the Summary Compensation Table in this proxy statement.

We have a 401(k) plan, the Humana Retirement Savings Plan, and a nonqualified, unfunded, defined contribution plan, the Humana Retirement Equalization Plan. The Internal Revenue Code imposes limitations on the contributions that may be made to a qualified plan, like our Humana Retirement Savings Plan. In 2021, once an individual is paid \$290,000 in compensation, both individual and Company contributions to the Pretax Savings Account of the Humana Retirement Savings Plan must cease. Any Company matching contributions that would have been made to the Pretax Savings Account of the Humana Retirement Savings Plan are credited to the Pretax Savings Account of the Humana Retirement Equalization Plan.

The benefits accrued under the Humana Retirement Equalization Plan are those Company contributions that cannot be made to the qualified Humana Retirement Savings Plan because of the IRS limitations. The maximum percentage of compensation (base salary and

incentive compensation) that can be contributed by a highly compensated employee to the Humana Retirement Savings Plan is 35% for 2021. The Company matches 125% of the first 6% of employee salary deferrals. Accruals under the Humana Retirement Equalization Plan, which is unfunded, are deemed to be invested in the accounts selected by the participants. The Humana Retirement Equalization Plan allows daily rebalancing of funds and allows direction of investment elections. Benefits in the Humana Retirement Equalization Plan, as directed by the participants, are distributable upon termination of employment, death, total disability, retirement or a change in control of the Company. Distribution of benefits may take the form of a lump sum payment or periodic installments not to exceed twenty (20) years — if the Humana Retirement Equalization Plan balance exceeds \$100,000. All of the Named Executive Officers, except Mr. Broussard (who elected installments for 10 years following termination), eligible for a contribution under the Humana Retirement Equalization Plan in 2021 will receive a lump sum payment upon termination.

We also maintain a Humana Deferred Compensation Plan, which is designed to provide certain key employees of the Company and its subsidiaries with the opportunity to defer receipt of a portion of certain incentive compensation to which they may become entitled while the plan is in effect. The Humana Deferred Compensation Plan is an unfunded, nonqualified deferred compensation plan that is maintained for the purpose of allowing deferred compensation to certain highly-compensated employees, within the meaning of Sections 201(2), 301(a)(3) and 401(a)(1) of ERISA, whose annual rate of base compensation exceeds the limitation provided in IRS Code Section 401(a)(17) for the plan year. For 2021, participants may elect to have the payment of up to 80% of his or her incentive compensation for a plan year deferred pursuant to the Humana Deferred Compensation Plan; provided, that such amount must be equal to or greater than \$25,000. If a participant's deferral election results in a deferral amount of less than \$25,000, then the deferral amount shall be zero. Deferral elections under the Humana Deferred Compensation Plan are made annually and are irrevocable. The deferral account accrues interest using the established two-year U.S. Treasury note rate. Distributions from the Humana Deferred Compensation Plan are distributable upon the payment commencement date, as determined upon the participant's deferral election, which may be (i) the date that is six months following the date of the participant's separation from the Company; (ii) a date specified by the participant in his or her deferral election; or (iii) the earlier of either the date that is six months following the date of (i) or (ii). Distributions may take the form of a lump sum payment or periodic installments (quarterly or annually) not to exceed ten (10) years — if the deferral balance is less than \$100,000, then payment will be made in lump sum regardless of the participant's election. Mr. Fleming is the only Named Executive Officer who has participated in the Humana Deferred Compensation Plan, however he made no contributions during 2021. Mr. Fleming's 2021 accrued earnings of \$1,947 and 2021 deferral account balance of \$230,239 are each included within the table above under column (d) and column (f), respectively.

Potential Payments Upon Termination or Change in Control of the Company

In accordance with our past disclosure practice, the table below discloses amounts payable to our Named Executive Officers under various scenarios had such occurred as of December 31, 2021. The Named Executive Officers would each receive certain payments upon termination from the Company which vary in amount depending on the reason for termination. Each Named Executive Officer would also receive a specified payment in connection with a change in control of the Company. The table below provides dollar amounts for all potential payments that would be paid by us to each Named Executive Officer under various scenarios involving either a termination or a change in control. The payments to our Named Executive Officers are governed by the various agreements or arrangements described in the footnotes to the table. The timing of the payments described below to the Named Executive Officers may also be subject to the provisions of Section 409A which may delay payment.

(1) Severance Policy

We have a Severance Policy that covers all of our Named Executive Officers, or NEOs. Under the Severance Policy our NEOs, if involuntarily terminated for reasons not meeting the definition of Cause, would receive salary continuation during the Severance Period (24 months for the CEO; eighteen (18) months for other NEOs) following the termination date at their respective Severance Rate. The Severance Rate for all NEOs is equal to their then current Annual Base Salary, with the CEO's Severance Rate also including the target annual incentive compensation calculated as if goals had been met during the Company's then-current fiscal year, pursuant to the relevant incentive compensation plan. All other terminated Named Executive Officers would remain eligible to receive prorated incentive compensation to be paid at the normal time after year end, provided plan targets and other plan provisions were met. The calculations in the table assume a December 31, 2021 termination and incentive compensation for the full year at the target threshold.

Under the terms of the Severance Policy, each Named Executive Officer is required to enter into a written agreement containing certain restrictive covenants, including, non-compete and non-solicitation provisions as well as provisions relating to non-disparagement and cooperation, in each case for the duration of the applicable Severance Period.

(2) Stock Option and Restricted Stock Unit Agreements

At December 31, 2021, the NEOs have stock options and restricted stock units (with both time-based and performance-based vesting) outstanding under our Stock Plan. The treatment of these equity awards will vary depending upon the nature of the termination. The amounts disclosed in the table assume treatment of stock options and restricted stock units based on the December 31, 2021 fair market value of \$465.85.

Voluntary Termination. Under the Stock Plan, upon a voluntary termination for reasons not having to do with Cause or Retirement, in each case as defined below, each NEO would have 90 days to exercise any vested options, but in no event beyond the expiration date. Any unvested stock options held by our NEOs would be forfeited. Any unvested restricted stock units held by our NEOs would also be forfeited upon a voluntary termination for reasons not having to do with Cause or Retirement, in each case as defined below; provided, however, that the Committee may determine, in its sole discretion, that the restrictions on some or all of such unvested restricted stock units shall immediately lapse upon such termination.

Involuntary Termination Without Cause. Under the Stock Plan, upon an involuntary termination by the Company for reasons other than Cause, each NEO would have 90 days to exercise any vested options, but in no event beyond the expiration date. Any unvested stock options held by our NEOs would be forfeited. Any unvested restricted stock units held by our NEOs would also be forfeited. In addition, our equity grant agreements contain non-compete and non-solicit provisions that only remain in full force and effect following an involuntary termination by the Company for reasons other than Cause if we pay an amount at least equal to the NEO's then current annual base salary. Any such amounts that could be paid post-termination to enforce non-compete and non-solicit provisions are not included in the table above.

Involuntary Termination for Cause. Under the Stock Plan, in the event of termination for Cause, all options and unvested restricted stock units are forfeited for all NEOs, regardless of whether the options are vested. Under the Stock Plan, Cause is defined as "a felony conviction of a Participant or the failure of a Participant to contest prosecution for a felony, or a Participant's willful misconduct or dishonesty, any of which is determined by the Committee to be directly and materially harmful to the business or reputation of the Company or its Subsidiaries."

Retirement. Under the Stock Plan, an eligible Retirement means a combination of age and years of service with the Company totaling 65 or greater, with a minimum required age of 55 and a minimum requirement of five years of service. In the event of an eligible Retirement by a NEO, any outstanding options and restricted stock units will vest pro rata on the next scheduled vesting date, and any remaining outstanding options or restricted stock units would then be forfeited.

Death or Disability. Under the Stock Plan, in the event of death or Disability of a NEO, all outstanding options shall become immediately exercisable in full and the NEO, or his estate or representative shall have two years to exercise the options regardless of the expiration date. Under the Stock Plan, in the event of death or Disability of a NEO, any unvested restricted stock units shall immediately vest, and any unvested Shares of performance-based restricted stock units will vest at the target level.

Change in Control. Under the Stock Plan, in the event of a termination other than for Cause or resignation for Good Reason within two years following a Change in Control, (x) all outstanding options shall become immediately exercisable in full and the NEO shall have two years to exercise the options, but in no event beyond the expiration date, and (y) any unvested restricted stock units shall immediately vest, and any unvested Shares of performance-based restricted stock units will vest at the target level.

(3) Change in Control Policy and Benefits

We have a Change in Control Policy (CIC Policy), as adopted by the Organization & Compensation Committee. For the period ended December 31, 2021, all of our NEOs, including the CEO were eligible under the CIC Policy. The CIC Policy provides certain benefits in the event an eligible employee's employment is terminated by the Company without Cause or by the employee with Good Reason within twenty-four months following a Change in Control, or by the Company without Cause under certain circumstances prior to a Change in Control. The table assumes treatment of each NEO under the CIC Policy.

Under the CIC Policy for the period ended December 31, 2021, NEOs would be entitled to receive a Cash Severance equal to twice the sum of each individual's Annual Base Salary, excluding the CEO whose Cash Severance is equal to two and one-half times Annual Base Salary, as well as the target incentive compensation payable to him or her. Assuming a Change in Control and subsequent termination event had occurred at December 31, 2021, the payments set forth in the table above would have been made within fifteen business days of the termination event (or such later date as may be required by Section 409A) by the surviving company in the Change in Control. See the discussion herein under Note 3 regarding Change in Control treatment of equity compensation.

Further, under the CIC Policy, each NEO is entitled to receive all life insurance, health insurance, dental insurance, accidental death and dismemberment insurance and disability insurance under plans and programs in which the NEO and/or the NEO's dependents and beneficiaries participated immediately prior to the date of termination. These benefits shall continue for 18 months following termination. These benefits are valued at the amounts listed in the table above for the applicable period.

Pursuant to our long-standing Company policy, the CIC Policy does not include an excise tax gross-up provision with respect to payments contingent upon a change in control.

(4) Treatment of Equity Awards Granted to our CEO Prior to 2018

The Company and Mr. Broussard previously had in force an Amended and Restated Employment Agreement, dated as of February 27, 2014, later amended on July 2, 2015 and August 16, 2018, which we refer to herein as the Broussard Agreement. Effective as of January 1, 2019, Mr. Broussard and the Company agreed not to renew the Broussard Agreement, but that certain provisions pertaining to the treatment of equity awards granted prior to December 31, 2018, in the event of termination or change in control, would continue to apply. As of December 31, 2021 such equity treatment provisions only apply to Mr. Broussard's outstanding and exercisable stock options granted on February 19, 2018 as reported under section entitled "Outstanding Equity Awards at Fiscal Year-End" (the "2018 Outstanding Options"). For all other purposes, Mr. Broussard is governed by the Severance Policy and CIC Policy generally applicable to Company executives as described in Notes 1 and 3 above.

The table above discloses potential payments upon termination or a Change in Control that would be owed to Mr. Broussard had such events occurred as of December 31, 2021, and contemplates the separate treatment of the 2018 Outstanding Options. 2018 Outstanding Options that are outstanding on the Termination Date, notwithstanding any contract provision in the applicable award agreement or plan under which the award is granted, shall remain outstanding and exercisable until the earlier of the second anniversary of the Termination Date and the term of the stock option (i) upon a termination of Mr. Broussard's employment by us without Cause or by Mr. Broussard for Good Reason in circumstances not related to a Change in Control; (ii) upon a Change in Control Termination; or (iii) due to his death or Disability on or after a Change in Control.

(5) Pension and Retirement Plans

In the event of termination, each NEO would receive their account balance under the Humana Retirement Equalization Plan and the Humana Deferred Compensation Plan, as disclosed in the Nonqualified Deferred Compensation table, together with their Humana Retirement Savings Plan benefit. The Humana Retirement Savings Plan is a qualified 401(k) plan generally available to all Humana associates.

The Humana Retirement Savings Plan amounts are payable under various forms of distribution, the specific form to be elected by the participant. The forms of distribution are a single lump sum in cash or our common stock (if invested in the Humana common stock fund); substantially equal monthly, quarterly, or annual installments for a period of 5, 10, 15 or 20 years not to exceed the life expectancy of the participant, or the joint and last survivor expectancy of the participant and a designated beneficiary.

At December 31, 2021, the account balances under the Humana Retirement Savings Plan—which include both the individual's contribution and the Company's contributions—for the NEOs are as follows (which amounts are not included in the table above):

Bruce D. Broussard	\$ 854,155
Susan M. Diamond	\$1,036,752
T. Alan Wheatley	\$2,103,725
Timothy S. Huval	\$ 531,902
William K. Fleming	\$2,022,599

(6) Retirement

As noted above, under the Stock Plan, the definition of retirement eligibility means a combination of age and years of service with the Company totaling 65 or greater, with a minimum required age of 55 and a minimum requirement of five years of service. For additional information on the stock options and restricted stock units held by each of our NEOs, please refer to the table entitled, "Outstanding Equity Awards at Fiscal Year End" in this proxy statement. The table above does not include amounts that would be realized from continued vesting of stock option and restricted stock unit awards.

(7) Life, Health and Other Benefits

Upon termination (other than a termination in connection with a Change in Control as described above), all officers elected by our Board of Directors, including our NEOs, are eligible for continuation of health and dental coverage pursuant to COBRA. Such coverage is not included in the table above (except for a Change in Control, where a two year expense for health benefits is included, assuming a 10% increase in premiums year over year).

In the event of death, the estate of each NEO is entitled to receive a life insurance benefit in the amount of three times the current base salary of the officer (up to a maximum of \$3 million), reduced by 50% when the age of 70 has been attained. As of December 31, 2021, the amount payable under such death benefit, which is not included in the table above, is as follows for our NEOs:

Bruce D. Broussard	\$3,000,000
Susan M. Diamond	\$2,250,000
T. Alan Wheatley	\$1,995,000
Timothy S. Huval	\$1,989,000
William K. Fleming	\$1,680,000

(8) Payments to Mr. Kane in Connection with his Departure

In connection with Mr. Kane's transition from Chief Financial Officer to a strategic advisor effective as of June 1, 2021, Mr. Kane entered into a Separation and Transition Agreement on March 22, 2021. While serving as a strategic advisor, Mr. Kane continued to receive his base salary and was eligible for incentive compensation and benefits from the Company. Mr. Kane transitioned to an advisory role in order to facilitate a smooth transition with respect to the Company's finance and reporting functions, and continued to provide strategic advisory services to the Company. On February 28, 2022, at the end of the transition period, Mr. Kane's employment with the Company terminated due to the elimination of his role and, subject to his execution of a general release and compliance with applicable restrictive covenants, Mr. Kane became entitled to the benefits pursuant to the Company's Executive Severance Policy and stock incentive plans that participants receive in connection with a position elimination. Accordingly, Mr. Kane is entitled to base salary continuation for eighteen (18) months following his termination of employment (\$1,147,500) and his outstanding restricted stock units and unvested stock options continue to vest for one year following the date that his employment terminated as if Mr. Kane had continued to be employed through the end of such period. In addition, Mr. Kane continues to be bound by non-compete and non-solicit covenants during the applicable severance period.

Certain Transactions with Management and Others

The Board of Directors has determined that there are no material transactions involving a current director or director nominee of the Company. For a discussion of the transactions reviewed, please see the discussion under “Independent Directors” herein.

The Board of Directors has reviewed the following transactions involving an executive officer, former director or greater than 5% stockholder:

- During 2021, the Company had an agreement with BlackRock, Inc., or BlackRock, which holds greater than five percent of the Company’s outstanding stock as of December 31, 2021. Under this agreement, BlackRock provided fixed income investment management services to the Company, for which the Company paid approximately \$3.83 million in fees for the year ended December 31, 2021. The fees were determined solely on the amount of assets under management, and, to our knowledge, were comparable to those of non-affiliated customers. During 2021 the Company received approximately \$48,600 in fees associated with employee assistance program services, which is an amount that is comparable to other non-affiliated customers for the provision of similar services.
- During 2021, the Company maintained a mutual fund with FMR LLC, or Fidelity Investments, in which the Company invested in the Fidelity Investments Money Market Treasury Portfolio mutual fund. In connection with this mutual fund, the Company paid approximately \$108,472 in management fees for the year ended December 31, 2021. The fees were determined solely based on the institutional share class expense ratio of 0.14%, as disclosed in fund’s prospectus, and, to our knowledge, said share class is available to all non-affiliated investors that meet the minimum required investment balance.
- During 2021, the Company had a business relationship with Stock Yards Bank & Trust, of which the brother of our executive officer Cynthia H. Zipperle serves as Chairman and Chief Executive Officer. The Company received approximately \$1.20 million in connection with healthcare administration fees associated with the Company’s self-funded ASO plan offerings and Go365® wellness and rewards program and approximately \$1.16 million in healthcare premiums, of which all amounts are comparable to other non-affiliated customers for the provision of similar services.

The Board of Directors has adopted a policy for review, approval and monitoring of transactions involving the Company and directors and executive officers or their immediate family members, or stockholders owning five percent or greater of the Company’s outstanding stock. The policy covers any related person transaction that meets the minimum threshold for disclosure under the SEC’s regulations. The Related Party Transaction Approval Policy may be viewed on our website. From the www.humana.com website, click on “Investor Relations,” then click on “Corporate Governance,” and then click on the link entitled “Policy Regarding Related Person Transactions.” Pursuant to that policy, our Board of Directors has approved the continuation for 2022 of the above described relationships.

Audit Committee Report

Our Audit Committee currently is comprised of four directors. All members are independent and are financially literate as defined in the NYSE listing standards. The Board of Directors has determined that Messrs. D’Amelio and Garratt and Dr. Bono each meet the definition of “audit committee financial expert.” The Board of Directors has adopted a written charter for the Committee.

As set forth in its Charter, our Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm engaged to prepare the audit report or perform other audit, review or attestation services. The Audit Committee has retained PricewaterhouseCoopers LLP, or PwC, as the Company’s independent registered public accounting firm for fiscal year 2022. PwC has been retained as the Company’s independent registered public accounting firm continuously since 1968.

The Audit Committee reviews Humana’s financial reporting processes on behalf of the Board of Directors. In fulfilling its responsibilities, the Audit Committee has reviewed and discussed the audited financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2021, with Humana’s management and its independent registered public accounting firm, PwC. Management is responsible for the financial statements and the reporting process, including its assessment of our internal control over financial reporting. PwC is responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States of America. Management has represented to PwC and the Audit Committee that our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. The Audit Committee discussed with PwC the matters required to be discussed by Auditing Standard No. 1301, *Communications with Audit Committees*. In addition, the Audit Committee has discussed with PwC its independence from Humana and its management including the matters in the written disclosures required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm’s communications with the Audit Committee concerning independence.

During 2021, the Audit Committee met independently with our Chief Audit Officer, our Chief Risk Officer, our Chief Compliance Officer, key members of management, and PwC regarding our business, current and planned audit activities, and risks that could impact the Company and management actions to mitigate those risks. The Audit Committee, in consultation with management, Internal Audit, and PwC, reviewed our quarterly financial statements and earnings releases. The Audit Committee reviewed our annual financial statements. Audit Committee members individually reviewed our monthly operating and financial information as well as internal audits of controls over operations, financial processes, and compliance with laws and regulations.

The Audit Committee reviewed and evaluated the relevant requirements of the Sarbanes-Oxley Act of 2002, the rules of the SEC and the listing standards of the NYSE regarding audit committee procedures and responsibilities, including a review of our internal controls and procedures.

The Audit Committee reviewed and approved the services provided by PwC to us consisting of the following:

	For The Years Ended December 31	
	2021	2020
Audit Fees	\$10,462,000	\$ 6,003,000
Audit Related Fees	\$ 1,255,000	\$ 1,650,000
Tax Fees	\$ 146,475	\$ 157,362
All Other Fees	\$ 1,257,356	\$ 2,620,788
TOTAL	\$13,120,831	\$10,431,150

- Audit Fees include activities relating to the audit of our consolidated financial statements, the audit of internal control over financial reporting, statutory and other separate Company audits, work performed in connection with registration statements, and consultations related to miscellaneous SEC and financial reporting matters. The increase in audit fees primarily relates to our acquisition of Kindred at Home in 2021.
- Audit Related Fees include other assurance and related services including the audits of our employee benefit plans, Service Organization Controls (SOC) reports and other mandated regulatory and compliance attestation services. No amounts were paid for financial systems design and implementation.

- Tax Fees include activities relating to tax compliance, consultation and support services.
- All Other Fees include activities related to advisory services and the annual renewal of software licenses for accounting research.

The Audit Committee discussed with our internal auditors and with PwC the overall scope and plans for their respective audits. At each meeting, the Audit Committee is provided the opportunity to meet with the internal auditors and with PwC with and without management present, and, in fact, met with the internal auditors and with PwC with and without management present in connection with each regularly scheduled Board of Directors meeting in 2021.

The Audit Committee has established policies and procedures for pre-approving all audit, review and attest services that are required under the securities laws and all other permissible tax and non-audit services necessary to assure PwC's continued independence. The Audit Committee annually pre-approves the following permissible non-audit services:

- related assurance and attestation services;
- risk and control services;
- transaction services; and
- tax services.

The fees shown in the table above were all pre-approved in accordance with these policies and procedures. The Audit Committee separately will consider any proposed retention of the independent registered public accounting firm for permissible non-audit services other than those listed above. The Audit Committee is responsible for the audit fee negotiations associated with the Company's retention of PwC.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Humana Annual Report on Form 10-K for the year ended December 31, 2021.

All members of the Audit Committee of the Company whose names follow submit the foregoing report:

AUDIT COMMITTEE

Frank A. D'Amelio, Chairman
 Raquel C. Bono, M.D.
 John W. Garratt
 William J. McDonald

Proposal Two

Ratification of Appointment of Independent Registered Public Accounting Firm

Background

The Board of Directors, in accordance with the recommendation of its Audit Committee, believes that the continued retention of PwC as the Company's independent registered public accounting firm is in the best interests of the Company and its stockholders, and therefore has appointed PwC to audit the consolidated financial statements of the Company for the year ending December 31, 2022. In making this appointment, the Board considered the performance and independence of PwC, including whether any non-audit services performed by PwC are compatible with maintaining independence. The Audit Committee and Board of Directors believe that PwC has invaluable long-term knowledge of Humana. While preserving that knowledge, partners and employees of PwC engaged in audits of Humana are periodically changed, giving Humana access to new expertise, experience and perspectives.

We are asking our stockholders to ratify the appointment of PwC as our independent registered public accounting firm. Although ratification is not required by our Charter, Bylaws, Delaware law or otherwise, the Board is submitting the appointment of PwC to our stockholders for ratification because we value our stockholders' views on our independent registered public accounting firm. If our stockholders fail to ratify the appointment, it will be considered as a non-binding recommendation to the Board and the Audit Committee to consider the appointment of a different firm for fiscal year 2023. Even if the appointment is ratified, the Board and the Audit Committee may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our stockholders. We expect that representatives of PwC will be present at the Annual Meeting and will be afforded the opportunity to make a statement if they desire to do so and to respond to appropriate questions.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the votes present and entitled to vote with respect to the proposal is required for the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm. Shares not present at the meeting have no effect on the ratification of the appointment of PricewaterhouseCoopers LLP, while Shares voting "abstain" will be counted as "against" votes. Pursuant to NYSE regulations, brokers and other NYSE member organizations have discretionary voting power over the ratification of the appointment of the Company's independent registered public accounting firm.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

Proposal Three

Non-Binding Advisory Vote with Respect to the Compensation of the Company's Named Executive Officers

Background

The Dodd-Frank Act requires that we include in our proxy statement a non-binding advisory stockholder vote with respect to the frequency of future advisory votes regarding the compensation of our Named Executive Officers as described in the Compensation Discussion and Analysis section, the compensation tables and the accompanying narrative disclosure, set forth in this proxy statement (commonly referred to as "Say-on-Pay").

At our 2017 Annual Meeting, held on April 20, 2017, our stockholders recommended an annual Say-on-Pay vote, and our Board of Directors subsequently adopted that recommendation. In 2022, we are therefore asking our stockholders to vote on the following resolution:

RESOLVED, that the stockholders of Humana Inc. approve, on an advisory basis, the compensation of the Company's Named Executive Officers, as described in the Compensation Discussion and Analysis section, the compensation tables, and the accompanying narrative disclosure, set forth in the Company's proxy statement.

The compensation of our Named Executive Officers is disclosed in the Compensation Discussion and Analysis, the compensation tables, and the related disclosures contained in this proxy statement. As discussed in those disclosures, our philosophy is that compensation should be market-based, competency-paced and contribution-driven. Our compensation programs are designed to challenge participants as well as reward them for superior performance for our Company and our stockholders, with an emphasis on pay for performance principles to align the interests of our Named Executive Officers with those of our stockholders. Our compensation practices and policies enable us to attract and retain talented and experienced executives to lead the Company successfully in a competitive environment.

Your vote on this Proposal Three is an advisory one, and therefore is not binding on the Company, the Organization & Compensation Committee, or the Board. The vote will not be construed to create or imply any change to the fiduciary duties of the Company or the Board, or to create or imply any additional fiduciary duties for the Board. Nevertheless, our Board and our Organization & Compensation Committee value the opinions of our stockholders, and intend to consider any stockholder concerns evidenced by this vote. We will continue to evaluate and disclose whether any actions are necessary to address those concerns.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the votes present and entitled to vote with respect to the proposal is required for the approval of the non-binding advisory vote with respect to the compensation of the Company's Named Executive Officers. Shares not present at the meeting and broker non-votes have no effect on the approval of this non-binding advisory vote, while abstentions will count as votes "against." Pursuant to NYSE regulations, brokers do not have discretionary voting power over this proposal, and therefore, if you hold Shares through a broker or other NYSE member organization and do not provide voting instructions to your broker or other NYSE member organization, your Shares will not be voted with respect to this proposal. If you timely submit a signed proxy but fail to specify instructions to vote with respect to this proposal, the accompanying proxy will be voted FOR this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE PROPOSAL TO APPROVE THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS AS DESCRIBED IN THE COMPENSATION DISCUSSION AND ANALYSIS, THE COMPENSATION TABLES, AND THE RELATED DISCLOSURES CONTAINED IN THIS PROXY STATEMENT.

Incorporation by Reference

The Organization & Compensation Committee Report and the Audit Committee Report (including the reference to the independence and financial expertise of the Audit Committee members), each contained in this proxy statement, are not deemed filed with the SEC and shall not be deemed incorporated by reference into any prior or future filings made by Humana under the Securities Act of 1933, except to the extent that we specifically incorporate such information by reference into any of these future filings.

Additional Information

Our Annual Report on Form 10-K for the year ended December 31, 2021, excluding certain of its exhibits, is included with the transmittal of this proxy statement. We will provide a copy without charge to anyone who makes a written request to Humana Inc., Investor Relations Department, 500 West Main Street, Louisville, KY 40202.

By Order of the Board of Directors,

Joseph M. Ruschell
Associate Vice President, Assistant General Counsel &
Corporate Secretary
